Independent Accountants' Report on Applying Agreed-Upon Procedures

Kathleen Davies
Chief Administrative Auditor
Office of Auditor of Accounts
State of Delaware

We have performed the procedures enumerated below, which were agreed to by the Office of the State Treasurer and the Office of Auditor of Accounts, State of Delaware, solely to assist you in the evaluation of the bank reconciliations of the Office of the State Treasurer as of March 31, 2015. The Office of the State Treasurer's management is responsible for the State of Delaware's (the "State") bank reconciliations. This agreed-upon procedures engagement was performed in accordance with *Government Auditing Standards*, issued by the Comptroller General of the United States, and the attestation standards established by the American Institute of Certified Public Accountants. The sufficiency of these procedures is solely the responsibility of those parties specified in this report. Consequently, we make no representation regarding the sufficiency of the procedures described below either for the purpose for which this report has been requested or for any other purpose.

Our procedures and findings are as follows:

1. Compared the list of accounts generated from the First State Financials (FSF) *Activity by Balance Sheet Account* (DGL046) to the bank accounts reconciled by the Office of the State Treasurer and the accounts included as part of each quarter's ending cash balance in FSF cash accounts 11000, 11001, 11002, 11005, 11006, 11007, 11010, 11011, 11012, 11017, 11023, 11024, and 11025 and found them in agreement.

Performed the following procedures regarding agency and department level reconciliations:

- a. We discussed the reconciliation process with the Office of the State Treasurer, noting that the DGL046 report used for the monthly Treasurer's FSF reconciliation provides information by bank code only, not by agency/department level.
- b. Confirmed there is not a system report that shows a breakout of the Office of the State Treasurer ending cash balances at the agency or department level. As a result, the Office of the State Treasurer completes the monthly Treasurer's to FSF reconciliation at the statewide level only (by bank code, as detailed on the DGL046). Detailed information is not available to complete a reconciliation at the agency/department level or to provide cash balances at the agency/department level as of a specified point in time.

4. Obtained the Office of the State Treasurer's reconciliation of bank balances to FSF as of March 31, 2015, and performed procedures #5 - #9 below.
5. Agreed each bank balance to the actual bank statements, and also agreed each book balance to the DGL046 report. No exceptions were noted.
6. Obtained explanations and examined supporting documentation for reconciling items over \$3,133,000, including the subsequent clearing of these reconciling items in the following months. No exceptions were noted.
7. Recalculated the reconciliations for mathematical accuracy. No exceptions were noted.
8. Compared the types and amounts of reconciling items over \$3,133,000 for nonrecurring items. Nonrecurring items are any items that are not outstanding deposits, outstanding checks – vendor and Division of Revenue accounts, ACH payments, general journal vouchers and Treasury vouchers. No items were noted that were both over \$3,133,000 and nonrecurring.
9. Agreed the cash balance reflected in the reconciliations to the Monthly Financial Report submitted by the Secretary of Finance to the Governor and members of the General Assembly. Exception noted. It was determined that the cash balance of \$1,780.6 million submitted by the Secretary of Finance to the Governor and member of the General Assembly was \$35.8 million higher than the balance of \$1,744.8 million reflected in the reconciliations.
10. Obtained and reviewed the Office of the State Treasurer's bank reconciliation policies and procedures dated February 28, 2000, in order to determine if these policies and procedures were applied when the Office of the State Treasurer performed its March 31, 2015 reconciliation. We noted that the 2000 policy document was still in effect for the reconciliation process to FSF; there were no material changes to the reconciliation process. No deviation from written policy was noted.
11. Obtained the wire transfer log for the quarter. Selected all significant transfers between accounts in excess of \$3,133,000 for the quarter and agreed the transfer information to the applicable month's bank statements, ensuring both sides of the transfer actually occurred within one business day. No exceptions were noted.
12. Agreed the transfer activity obtained in procedure #11 to the appropriate postings in the accounts on the DGL046 report. No exceptions were noted.
13. Haphazardly selected the following five wire transfers between accounts in the quarter from the zero-balance bank accounts and agreed the net activity to the corresponding clearing in the concentration bank account. In addition, agreed the monthly posting of the zero balance and concentration activity to the DGL046 report. No exceptions were noted.
