DELAWARE STATE LOTTERY

An Enterprise Fund of the State of Delaware

COMPREHENSIVE ANNUAL FINANCIAL REPORT

FOR THE YEARS ENDED JUNE 30, 2020 AND 2019

Prepared by:

Tina M. Leager

Senior Fiscal Administrative Officer

Delaware State Lottery

KATHLEEN
McGUINNESS
DELAWARE
STATE AUDITOR

*Delaware State Lottery's
Annual Comprehensive Financial Report
Fiscal Years 2019 and 2020*

What Was Performed? A financial statement audit of the Delaware State Lottery's Annual Comprehensive Financial Report for Fiscal Years 2019 and 2020.

Why This Engagement? This engagement was performed in accordance with 29 *Del. C.* § 4816 and 29 *Del. C.* § 2906.

On Nov. 30, 2020, an audit of the Delaware State Lottery's Financial Statements was released. That audit presented only basic financial statements about the lottery. This engagement is for the Delaware State Lottery's Annual Comprehensive Financial Report (ACFR). In contrast, the ACFR presents a wider variety of important information to help readers properly understand the basic statements. This allows the Delaware State Lottery to participate in the Government Financial Officers Association (GFOA) ACFR certification program, which it has participated in for 20 years.

Unlike many other state lotteries, the Delaware Lottery's revenue is not earmarked for any specific cause or group. Instead, the lottery generates income for the state's General Fund.

The General Fund is a pool of money that finances a variety of state services, such as youth education, protecting neighborhoods from crime and pollution, maintaining parks and beaches, and healthcare for families and seniors. In this way, the Delaware Lottery helps pay for services that otherwise would require additional tax dollars.

The Delaware Lottery has contributed \$5.4 billion to the state's General Fund since 1975 and contributed \$213.9 million in FY19 and \$175.7 million in FY20.

What Was Found? It's my pleasure to report this audit contains an unmodified opinion.¹ There were no findings required to be reported under *Government Auditing Standards*.

The Delaware State Lottery's Annual Comprehensive Financial Report for Fiscal Year 2019 and 2020 can be found on our website: [click here](#).

Please do not reply to this email. For any questions regarding the attached report, please contact State Auditor Kathleen K. McGuinness at Kathleen.Mcguinness@delaware.gov.

¹An unmodified opinion is sometimes referred to as a "clean" opinion. It is one in which the auditor expresses an opinion that the financial statements present fairly, in all material respects, an entity's financial position, results of operation and cash flows in conformity with generally accepted accounting principles.

State of Delaware

INTRODUCTION

We are pleased to submit to you this Comprehensive Annual Financial Report of the Delaware State Lottery for the fiscal year ended June 30, 2020. This report has been prepared by the Finance and Accounting Department of the Lottery.

Responsibility for both the accuracy of the financial data and the completeness and fairness of the presentation, including all disclosures, rests with the Delaware State Lottery. To the best of our knowledge and belief, the data presented is accurate in all material respects and is reported in a manner designed to present fairly the financial position, results of operations, and cash flows of the Lottery. All disclosures necessary to enable the reader to gain an understanding of the Lottery's financial activities have been included.

This Comprehensive Annual Financial Report is presented in three sections, as outlined below:

The Introductory section is comprised of this transmittal letter, a list of principal officials, an organization chart and a copy of the Certificate of Achievement for Excellence in Financial Reporting for the year ended June 30, 2019.

The Financial section begins with the independent auditors' report followed by management's discussion and analysis and then by the Lottery's audited financial statements and accompanying notes for the years ended June 30, 2020 and 2019.

The Statistical section presents trends of financial and other relevant data. It includes data on the Delaware State Lottery and certain data pertaining to the United States Lottery industry.

REPORTING ENTITY

OVERVIEW:

The Reporting entity is the Delaware State Lottery (the Lottery). The Lottery operates traditional lottery games, video lottery, sports lottery and table games such as blackjack and poker, and internet gaming for video and tables (I-Gaming). This report includes only activity of the Lottery and does not include data or information related to any other state agency or fund.

LOTTERY MISSION STATEMENT:

To maximize revenue contributions to the State's General Fund, thereby helping to fund the delivery of governmental services to the people of Delaware:

- Through the marketing, sale and distribution of innovative, entertaining and secure Lottery products that ensure the public's confidence in the integrity of the games, retailers, agents, and Lottery operations, and
- By providing leadership and a corporate culture that encourages productive change leading to improvement in every aspect of the business.

TRADITIONAL LOTTERY:

The Lottery was established by enabling legislation signed into law on May 31, 1974, by the Governor of the State of Delaware and placed under his Executive Office. On July 7, 1976, the Lottery was transferred from the Office of the Governor to the Department of Finance.

This enabling legislation, which established the traditional lottery, placed the operation of the lottery under the supervision of a Director. The Director has the power and duty to establish rules for conducting games, including the type and number of games, the price of tickets, the number and amounts of winning tickets, the manner of prize payment, frequency of drawings, locations and methods for the sale of tickets, procedures for licensing of retailers and all other functions related to the operations of the lottery. The legislation provided that at least 45 percent of total revenue shall be used to pay prizes, operating expenses shall not exceed 20 percent of total revenue and up to 30 percent of total revenue will be paid to the General Fund of the State of Delaware.

TRADITIONAL LOTTERY PRODUCTS

INSTANT GAMES

Instant tickets were introduced in February 1976. These games are easy to play since all that is required is to scratch the latex covering off the play area on the ticket. If the correct combination appears, the player becomes an instant winner. The Lottery currently has a wide variety of instant game themes and ticket prices by game.

PLAY3[®]

Play 3 was the first traditional drawing game introduced by the Lottery in January 1978. Players pick three numbers from 0 to 9 and choose among nine different play options. Players also have the option of selecting

for a “Day” or a “Night” drawing. “Day” drawings are held Monday through Saturday and “Night” drawings are held seven nights a week. Odds of winning and payouts vary depending on the selected option.

PLAY4[®]

Play 4 was introduced in January 1980. Players pick four numbers from 0 to 9 and choose among five different options. Players also have the option of selecting for a “Day” or a “Night” drawing. “Day” drawings are held Monday through Saturday and “Night” drawings are held seven nights a week. Odds of winning and payouts vary depending on the selected option.

MULTI-WIN LOTTO

Lotto was first introduced in April 1983 with a “6 of 30” matrix. The jackpot prize for picking all six correct numbers out of 30 was paid as an annuity over a maximum of twenty years. In July 1984, an EZ pick option, which gave players the choice of having the computer pick all or some of the numbers to be played, was added. Multi-Win Lotto was created during January 2005, replacing the Lotto game. The matrix changed to “6 of 35”. Tickets cost \$2 with each ticket giving players three lines of play. A prize can be won by matching three, four, five or six numbers straight across on any of the three lines of numbers. Players can also win by combining number matches from all three lines. This is accomplished by matching a total of at least six numbers from the three lines. Drawings for Multi-Win Lotto are held on every Monday, Wednesday and Friday.

Powerball is a traditional lottery drawing game jointly operated by multiple lotteries of throughout the United States. (Please see Note 5 of the Notes to Financial Statements in the “Financial Section” of this report for a further description of MUSL). In its current form, Powerball has a matrix of “5 of 69” for the first set and a matrix of “1 of 26” for the second (Powerball) set. Players have the option of receiving the jackpot as an annuity over 29 years or receiving the present value of the annuity stream in cash. A Powerball ticket costs \$2. The minimum jackpot offered is \$40 million. There are eight prize levels up to \$2 million. Drawings are held every Wednesday and Saturday. The jackpot amount increases for each drawing if no winning ticket matches the first set of five numbers and the Powerball number of the second set. An additional feature of the Powerball game is the Power Play option. Players can wager an additional \$1 for each Powerball game that they chose to play. If they win, they’re guaranteed to win the set Power Play prize amount. Power Play does not apply to the jackpot.

During January 2010, the Delaware Lottery began to sell tickets for Mega Millions, one of the country’s biggest traditional lottery drawing jackpot game. Changes made in fiscal year 2018, included: starting jackpot of \$40 million, tickets cost \$2 per play and players select five different numbers from 1 to 70 from one pool of numbers, and one Mega Ball number from 1 to 25. Lottery players also can wager an additional \$1 to activate the Mega plier option, which could multiply their non-jackpot prize by 2X – 5X. Players win the jackpot by matching all six numbers in a drawing. Drawings are held on Tuesday and Friday nights.

In January 2013, Keno was launched. Keno is an easy, fun and fast-paced traditional lottery drawing game that allows you to choose how many numbers to play and how much money to wager. Keno is played using a field of numbers from 1 to 80. You may choose up to 10 numbers in that field. The Lottery’s computer continuously generates random sets of 20 numbers. These numbers are then displayed on the Keno monitor. There are a variety of ways to win based on matching some, all, or in some cases, none of the numbers. Keno is available daily from 6:04 a.m. to 12:04 a.m. Drawings take place every four minutes.

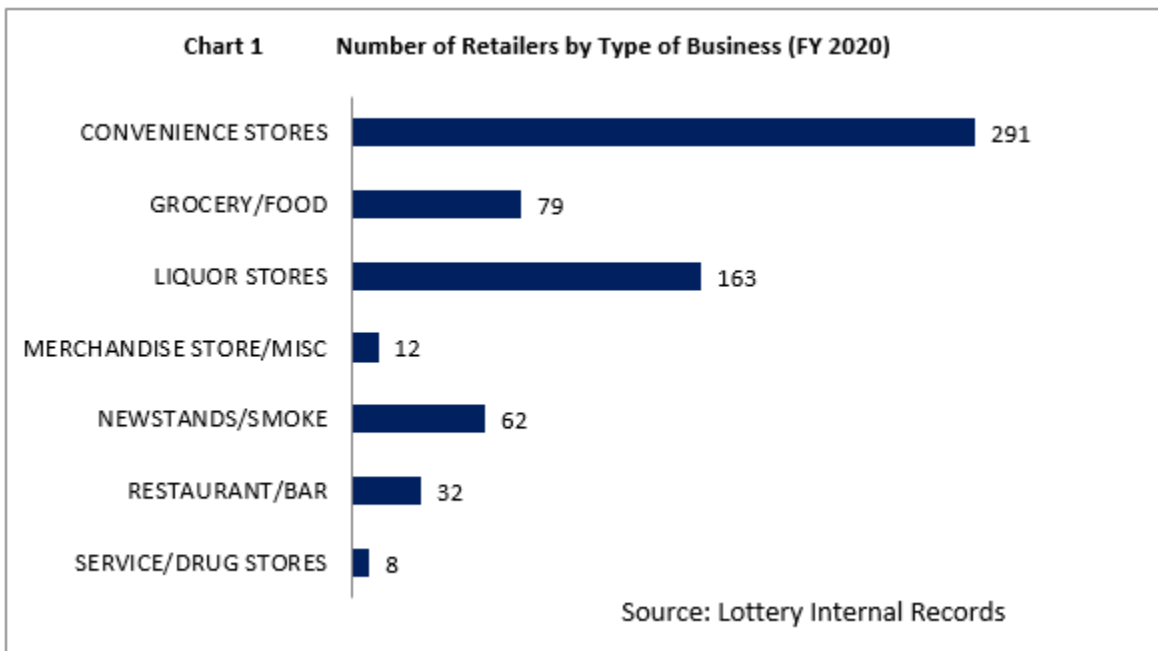

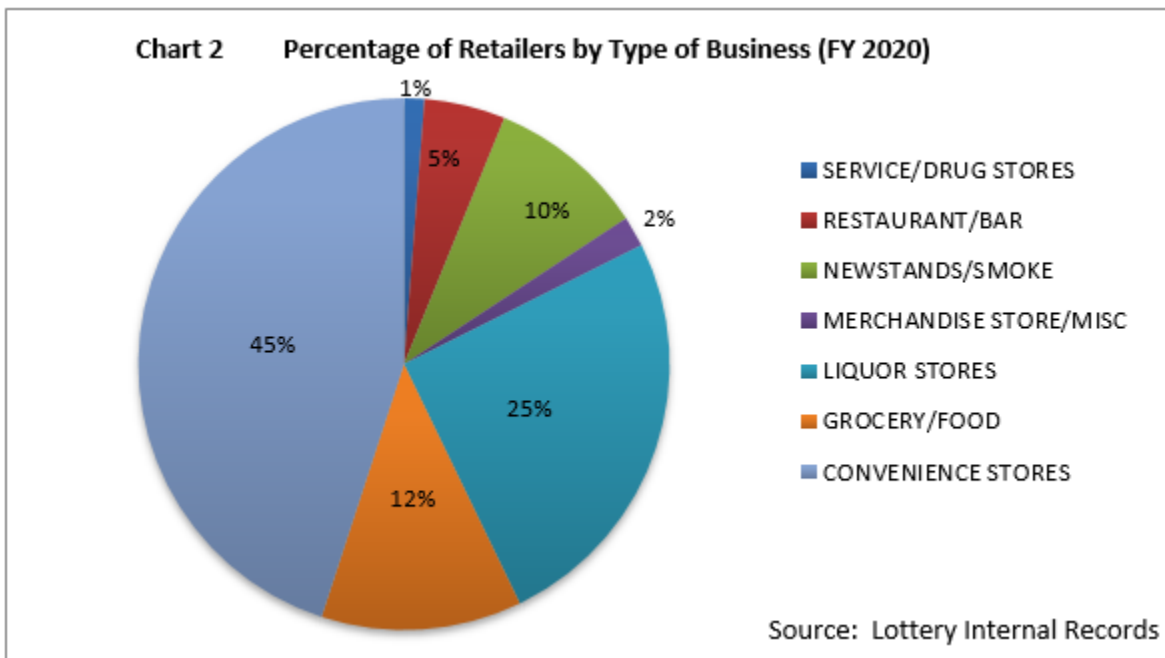

In February of 2015, Delaware joined a game called Lucky for Life. A total of 26 other states have combined their sales on this multi-state game. The top prize for this game is \$1,000 a day for life. The second prize is \$25,000 a year for life. Players select five numbers from 1 to 48 plus one number from 1 to 18 for the “Lucky” ball. The ticket cost \$2 and there are 8 set prizes in the pool ranging from \$4 to \$5,000. Drawings are held every Monday and Thursday nights.

In 2017, Delaware joined a multi-state game called Lotto America. Lotto America cost \$1 to play, selecting five numbers 1 to 52 for the red balls, then selecting one number from 1 to 10 for the Lotto America Star Ball. Lotto America’s Grand Prize starts at \$2 million and increases by a minimum of \$50,000 per draw until it is won. Players win the Grand Prize or one of 8 sets of cash prizes matching one of the 9 ways to win. For an addition \$1 per play, the Lotto America All Star Bonus can multiply winnings by 2, 3, 4, or 5 times. The multiplier number is randomly selected just before each drawing. The All-Star Bonus does not apply to the Grand Prize.

Retailer Data:

On July 16, 1994, enabling legislation called the “Horse Racing Redevelopment Act” (the Act) was passed by the General Assembly of the State of Delaware allowing the three existing racetracks (agents), upon license approval, to implement video lottery machines within their facilities. The purpose of the Act was to increase the economic activity and vitality of Delaware’s Standardbred and Thoroughbred horse racing industries. The Act authorized the operation of a maximum of 1,000 video lottery machines at each racetrack.

The Act covered all aspects of video lottery operations by setting into law the parameters by which the tracks could operate in Delaware. The Act also placed the Delaware State Lottery Office and its Director fully in charge of both implementation and oversight of operations as set forth by the legislation and authorized the creation of the Video Lottery Enforcement Unit to administer the security and law enforcement provisions of the Act and to conduct background investigations. In 2010, the Division of Gaming Enforcement was created under the Department of Safety and Homeland Security to replace the Video Lottery Enforcement Unit.

Consequently, the Delaware State Lottery Office established certain rules and regulations to be followed by the agents and gaming machine providers concerning:

- Licensing of agents and gaming machine providers
- Duties of agents and gaming machine providers
- Game requirements
- Transportation, registration, location and maintenance of video lottery machines
- Standards of operation
- Standards for advertising, marketing and promotional materials
- Payout percentages to players as established by law

The Lottery also developed a methodology for distributing video lottery revenue net of payments to players in accordance with the legislation. Based on weekly calculations, payments are made to the State General Fund and to the Department of Agriculture to be used for purse increases at the tracks and to the vendors of the gaming machines. The balance is returned to the agents as commissions.

Video lottery operations officially began on December 29, 1995 at Delaware Park and Dover Downs with 715 and 500 gaming machines, respectively. On August 20, 1996, Harrington Raceway opened its doors to the public with an initial count of 500 video lottery machines.

The enabling legislation, as mentioned above, contained a sunset clause, which would have terminated the Act after five years from March 15, 1995, if the legislation was not extended or reenacted. On March 26, 1998, the Act was re-authorized, and the sunset provision was revoked. Among other provisions, this legislation also authorized the operation of an additional 1,000 video lottery machines at each racetrack, bringing the total allowable machines at each track to 2,000. Additional legislation was passed on June 13, 2003, which permits the Lottery Director to authorize 500 additional video lottery machines at each licensed racetrack, bringing the total allowable machines at each track to 2,500. Again, on January 19, 2006, legislation was passed to increase the maximum number of video lottery machines at each racetrack from 2,500 to 4,000. As of June 30, 2020, there were 2,036 machines at Delaware Park, 2,133 machines at Dover Downs and 1,660 machines at Harrington Raceway.

There are three types of video lottery machines in operation currently – mechanical reel, video display, and multi-player automated table machines. Wagering limits vary from 1 cent to a maximum of \$100.

In July 2013, new legislation allowed fraternal or veterans organization with national affiliation or an organization whose membership consists primarily of veterans honorably discharged or active duty service member to operate charitable video lottery machines within their organizations upon approval from the Director of the Lottery. There are currently 48 Charitable Gaming Organizations with over 490 machines operating throughout the state.

More legislative changes were made based on the recommendations of the Lottery & Gaming Study Commission created by the General Assembly changing the initial methodology of video revenue distribution. Effective July 1, 2014, 75% of certain video lottery equipment costs will be deducted from net revenue prior to the calculation of the State's share of revenue. Effective July 1, 2018, legislation authorized the decrease in state share by 1% and increasing the purse shares for the Standardbred and Thoroughbred industry operating in Delaware. Effective July 1, 2019, the state share could be reduced by another 1% if the video lottery agents met qualifying capital expenditure criteria.

On May 12, 2009, enabling legislation was passed by the General Assembly of the State of Delaware requiring the Lottery Director to use his or her authority to reestablish a sports lottery, in order to enhance the Delaware Lottery, protect Delaware employment, and provide additional revenues for the State. The sports lottery authorization excluded collegiate sporting events that involve a Delaware college or university, as well as prohibiting persons under the age of 21 from participating in the sports lottery. The Governor signed the legislation into law on May 12, 2009. In reestablishing the sports lottery, the bill took advantage of an exemption

granted to the State of Delaware under federal law, namely the 1992 Professional and Amateur Sports Protection Act, which allows the states of Delaware, Nevada, Oregon, and Montana to engage in sports betting. The bill authorized the conduct of sports lottery only at the three casinos presently operating. Proceeds from the conduct of sports lottery at the casinos would be divided equally between the casinos and the State. The bill imposed a collective annual license fee of \$4,000,000, which is divided among the three casinos in proportion to each property's percentage of the State's total video lottery net proceeds. This fee was eliminated in fiscal year 2012 with the passage of House Bill 333, The Delaware Gaming Competitiveness act of 2012. The Delaware Lottery proceeded to promulgate rules and regulations for the sports lottery and engaged a vendor to provide a sport wagering system, selling terminals and risk management.

In response to an action brought by the National Football League (NFL), citing language from the 1992 Professional and Amateur Sports Protection Act, in late August 2009 a three-judge panel of the 3rd U.S. Circuit Court of Appeals limited the Delaware Sports Lottery to only parlay bets of three or more selections of at least three separate NFL games in a single wager.

On September 10, 2009, sales began for the Delaware Sports Lottery. The Lottery offered "off-the-board" parlay wagering as well as traditional parlay type cards, including a ½ point card, a teaser card and a super teaser card. A special card was introduced mid-season in which a customer had to select 15 games from that week's schedule, with a \$100,000 payoff for picking all games correctly.

Sports Lottery continued to expand gaming options for the 2011 season by introducing halftime wagers at the beginning of the season. Prior to the playoffs, pro football championship futures wagers were also added. For halftime wagers, point spreads were adjusted at halftime but still applied to the final score of the game and not to second half scoring alone. Futures wagers allowed players to bet on a team to win the Championship Game. To win a futures wager, a player's team must win three games: at least two playoff games and the Championship game. Totals (Over/Under) wagers were introduced for the 2013/2014 season. This is a wager based on the combined amount of points scored by both teams during the game, including overtime.

As a result of the passage of House Bill 333, The Delaware Gaming Competitiveness Act of 2012, Sports Lottery was expanded into retail locations in time for the 2012/2013 pro football season. Initially, 31 Sports Lottery retail locations were established throughout the State and currently extended to over 100 retailers. On June 5, 2018, the Delaware Lottery became the first to offer full-scale sports betting, this side of the Mississippi, due to the Supreme Court's decision to strike down a 1992 federal law that banned commercial sports betting in most states.

On January 15, 2010, enabling legislation was passed by the General Assembly of the State of Delaware authorizing the introduction and operation of table games by the Delaware Lottery at licensed video lottery agents. On January 28, 2010, the legislation was signed into law by the Governor. Like video lottery, table games are offered on the premises of Delaware's video lottery agents. The Delaware Lottery was given administrative and regulatory oversight of table games, including determining which table games (blackjack, craps, roulette, poker, etc.) would be played, as well as establishing regulations for the effective management of the games.

Proceeds from the operation of the table games are paid to the Delaware Lottery, which keeps a portion of those proceeds to cover its administrative expenses and its law-enforcement and security expenses, as well as an amount to fund programs for the treatment, education and assistance of compulsive gamblers, with the remainder contributed to the State General Fund.

This bill also imposed a license fee structure that will reward video lottery agents for making capital investments by allowing them to reduce the annual license fee by up to 50% to account for the cost of capital projects, and that reduces the total license fee further if the video lottery agents are able to achieve certain table gaming revenue annual targets. As such, this bill promotes capital investment by video lottery agents, encourages the video lottery agents to achieve reasonable revenue targets, and creates additional new employment opportunities. This bill also authorized the creation of a Lottery Commission, which would have responsibility for conducting hearings on disputed licensing and exclusion matters. Additionally, the bill authorized the creation of the Division of Gaming Enforcement in the Department of Safety and Homeland Security. Replacing the Video Lottery Enforcement Unit, the Division would consist of Delaware State Police investigators, responsible for investigating table gaming crimes, as well as the background checks.

Effective July 1, 2019, legislation passed reducing the state share of table games revenue from 29.4% to 15.5%. The bill also suspended the license fees due in exchange for providing proof of qualified investments by video lottery agents in the competitiveness of its facilities and business.

I-GAMING - (INTERNET VIDEO LOTTERY & INTERNET TABLE GAMES)

During fiscal year 2014, the Lottery was tasked with continuing the implementation of House Bill 333, The Delaware Gaming Competitiveness Act of 2012. One of the four main components was the authorization of casino style internet wagering. The Lottery launched the nation's first full-scale internet casino and poker offering in October of 2013. This included three internet casinos, one associated with each of the State's licensed video lottery agents, Delaware Park, Dover Downs, and Harrington Raceway. Delaware's internet gaming also introduced the nation's first "shared liquidity" poker network, allowing players from multiple Delaware internet casinos to sit in one common poker room and play against each other. In fiscal year 2015, the Delaware and Nevada governors signed a Multi-State Internet Gaming Licensees' Agreement to start a "shared liquidity" between the two states. Poker tables opened in March 2015 allowing players from Nevada and Delaware to sit at the same internet poker table. The lottery office added a second vendor to supply game content on our I-gaming platform and launched a mobile application to allow internet gaming through mobile devices in fiscal year 2016. In May 2018, the Multi-State Internet Gaming Licensees' Agreement was amended to add New Jersey.

ECONOMIC OUTLOOK

U.S. LOTTERY INDUSTRY:

Based on statistics compiled by *LaFleur's*, a gaming industry publication, total unaudited lottery sales for U.S. lotteries declined 0.2% to \$80.7 billion in fiscal year 2020, a decrease of \$0.2 billion. The Oklahoma Lottery led the industry with a 11% increase in total lottery sales in fiscal year 2020. Twenty U.S. Lotteries posted an increase in sales growth for traditional lottery in fiscal year 2020. The New York Lottery ranked first in traditional sales at \$7.7 billion. The Massachusetts Lottery ranked first in per capita total sales at \$756.

Total U.S instant ticket sales increased 7% to \$53.6 billion, up \$3.5 billion in additional instant sales over previous year. The Massachusetts Lottery ranked first in per capita instant sales at \$525. The Florida Lottery ranked first in gross sales of \$5.7 billion. The Oklahoma Lottery ranked first with an 46% increase in fiscal year 2020 instant sales over fiscal year 2019.

MAJOR INITIATIVES

GENERAL:

After the completion of fiscal year 2020 the Delaware Lottery has distributed over \$5.6 billion to the State General Fund. Since the commencement of video lottery and table games, The Delaware Lottery has contributed \$38.3 million to the Department of Health and Social Services to help fund initiatives that address problem gambling in Delaware.

The Delaware Lottery was ranked 2nd out of 45 U.S. lotteries in per capita total consolidated lottery sales and finished 28th in total consolidated lottery sales. The Delaware Lottery ranked 28th in per capita instant sales and placed 7th in overall change in instant sales comparing FY20 to FY19. The Delaware Lottery ranked 29th out of 45 states in draw sales and ranked 10th in per capita draw sales.

VIDEO LOTTERY:

The Lottery extended its contracts with vendors who provide Video Lottery Terminals (VLTs) for one (1) year to delay the RFP (scheduled for Spring 2020) due to COVID.

The funds in the amount of \$590,884, remaining from Delaware's participation in the now-defunct Mega Hits video lottery multi-state progressive, were distributed in FY20 to IGT players through a variety of exciting promotions at all three casinos.

There are almost 6,000 VLTs total in the three casinos and another 490 Charitable VLTs in the Charitable Gaming Organizations. Due to the Governor's COVID Guidelines which require six (6) feet between games, there have been a limited number of VLTs operating since re-opening in June. Currently, there are about 3000 VLTs (approximately half) operating within our casinos and another 260 operating within our 47 approved CGOs.

In fiscal year 2020, there were five winners of VLT jackpots over \$50K; one of them was over \$100K.

MARKETING AND SALES MANAGEMENT:

Fiscal year 2020 looked quite different than fiscal year 2019 in the wake of ongoing impacts of COVID-19. Instant sales soared during the pandemic, Play 3 and Play 4 draw games have reached an all-time record sales and social media and digital marketing have become a unified channel and approach to maximize response and subsequent sales performance!

During fiscal year 2020 we continued to expand our efforts to promote our loyalty program, Collect 'N Win. Our registered players have grown to almost 20,000 participants. In July 2019 registered players were able to enter the first eligible instant game ticket, Moolah, into the database to earn symbols and entries into the monthly drawing. Players collect symbols for their Delaware Lottery Collect 'N Win play card. Once all six symbols are

collected, they will be automatically entered to win monthly cash prizes. In February 2020 the program entered into its second year and we were able to increase the number of cash prizes as well as increase the number of winners.

We launched a new Licensed Property Instant Ticket – The Addams Family© Fortune in September 2019. This instant game became the second instant game that was eligible to be entered into the Collect 'N Win Loyalty program. Since MGM studios was introducing an animated reboot of the Addams Family tv series, we decided to host a retailer event and secure a private showing of The Addams Family© movie on October 27, 2019 at a local theatre. Nearly 200 Delaware Lottery Retailers attended the private showing and Lottery staff greeted the guest in full Addams Family costume. We ended fiscal year 2020 with a "Keep 'Em Full" instant game promotion just before the pandemic hit the world.

PARTIES, PARTIES, PARTIES! Keno parties.... Sports parties we started off the fiscal year with more focus and attention on elevating our product mix and what a better way to accomplish this than by having a party! In addition to the scheduled Keno parties we were conducting, the Lottery Field Reps started conducting "pop-up" Keno Parties and scheduling Sports Parties at select retail Lottery locations. During these parties, the field staff would engage the players and customers within each facility and promote the Keno and Sports Lottery products by giving out various free merchandise and free play to promote awareness of the games.

A plan to start a campaign for the Lottery's Play 3 and Play 4 games in March 2020 was briefly postponed due to the pandemic but was implemented during April 2020. The promotion campaign worked, triggering increases in these important games, which outsell all other traditional draw games in Delaware. We have had record sales for Play 3 and Play 4 in recent months.

Also, during fiscal 2020, after a long hiatus, we conducted a Player and Resident Research Study. It had been ten years since our last study. We basically had to start from the ground level; we have now established our base and will continue to track our progress from here so we will be in a position to meet the needs of our customers. Delaware Lottery's marketing programs maintained its long-standing relationships through sponsorships with our core State Universities athletics programs; Wilmington Blue Rocks Minor League Baseball Team; Numerous local & State festivals; and the Delaware State Fair. We welcomed new sponsorship opportunities partnering with, Light Up The Queen, a foundation dedicated to supporting the success of The Queen Theatre in which they hold an annual "Shine a Light Concert" in the venue; Del Tech University "An Evening of Mardi Gras"; Delaware International Speedway; and Delaware's first professional ice hockey team, Delaware Thunder. The team is a member of the Federal Prospects Hockey League.

FUTURE AND ON-GOING PROJECTS

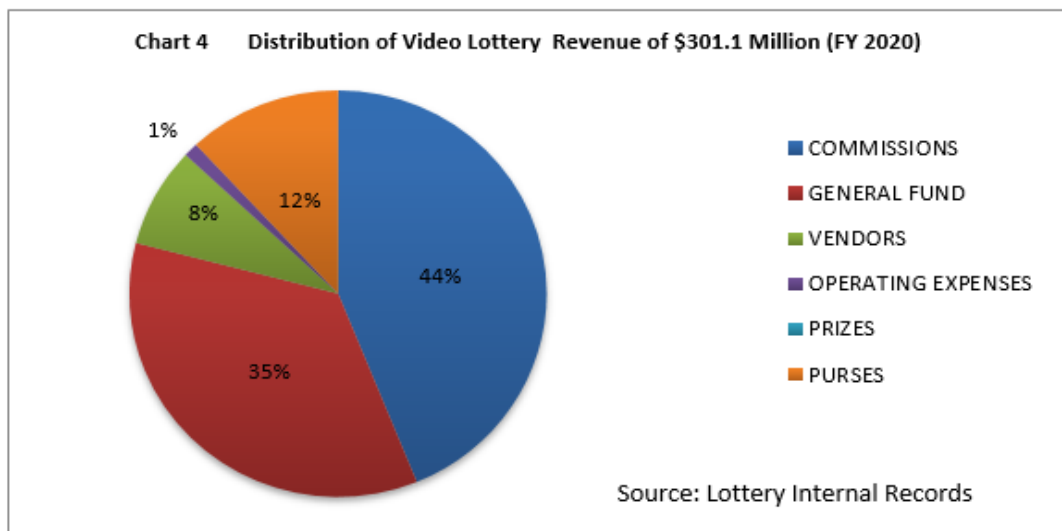

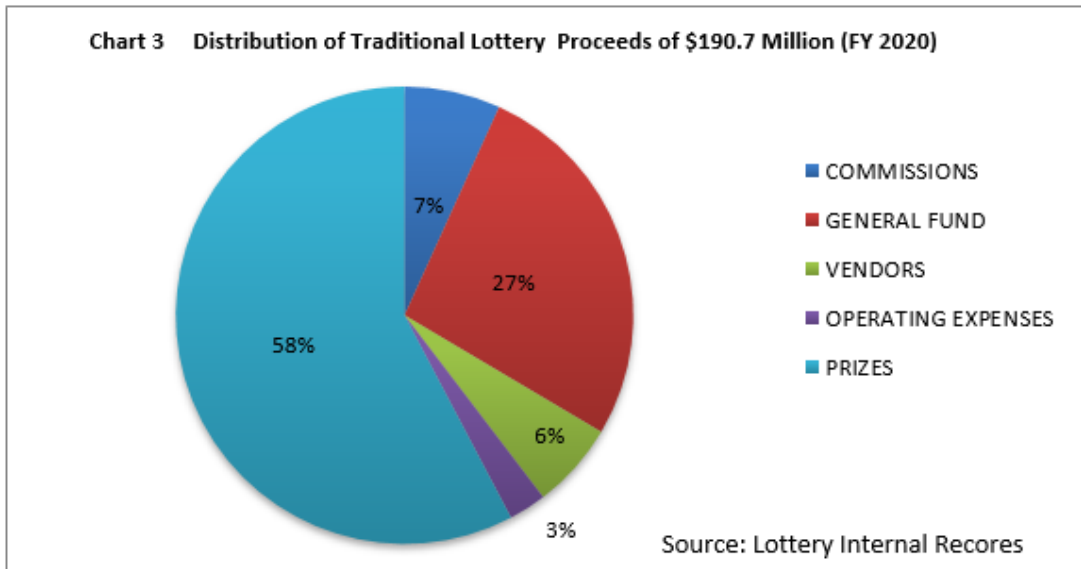

- Provide constant onsite regulatory oversight of all lottery gaming operations.
- Plan to go to RFP in Spring 2021 for vendors who provide VLTs to our casinos. We hope to bring additional VLT vendors into Delaware to provide an even greater variety of games for our players.
- 45 Year anniversary promotion planning and execution.
- Enhance player loyalty and engagement through expansion of loyalty program and implementation of a mobile app.
- Continue to expand and develop effective mass media and alternative media advertising programs including digital and social.
- Continue to effectively use "cooperative services" program by developing new and exciting games and promotional programs.

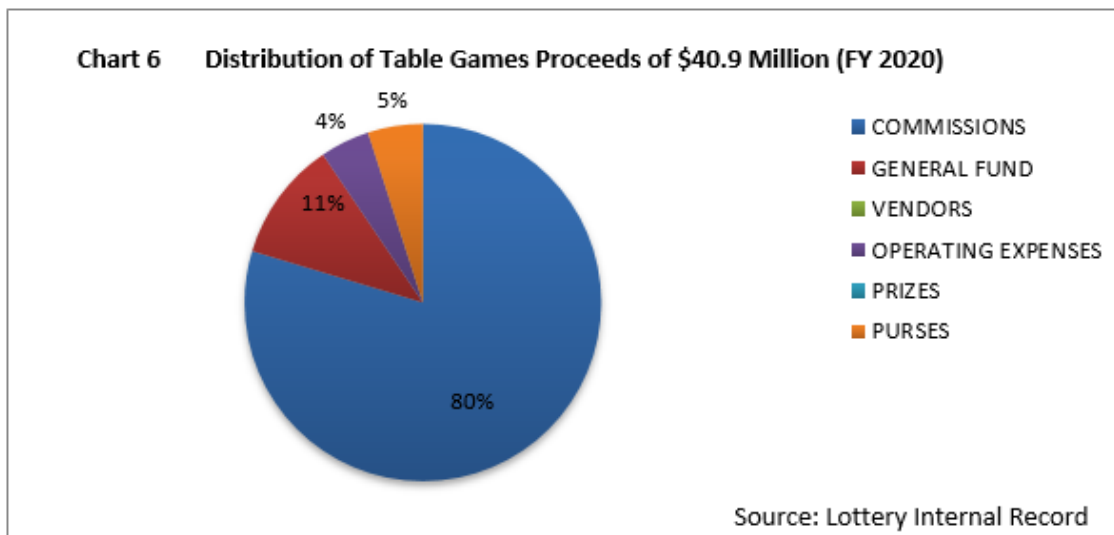

- Continue to conduct player and resident satisfaction surveys as well as strive to continually improve service in accordance with the Lottery’s mission, objective and goals.
- Contribute to the design, development and implementation of improved retailer relationship management, reporting, and communications solutions for instant product growth; Lottery support staff and retailers that capitalize on new technologies.
- Continue to employ effective sales management techniques to stimulate positive selling activities among licensed retailers.
- Continue the expansion of our retailer network by actively recruiting new and unique trade styles.

FINANCIAL INFORMATION

The Management Discussion and Analysis section starting on page 23 should also be read for an overview of the financial results.

REVENUE DISTRIBUTION:

The Delaware Lottery is proud of its contribution to the State General Fund which finances state services. The Lottery is the fifth largest contributor to this Fund. The monies, appropriated by the Legislature as a result of the Governor’s recommended budget, fund such necessary state services as:

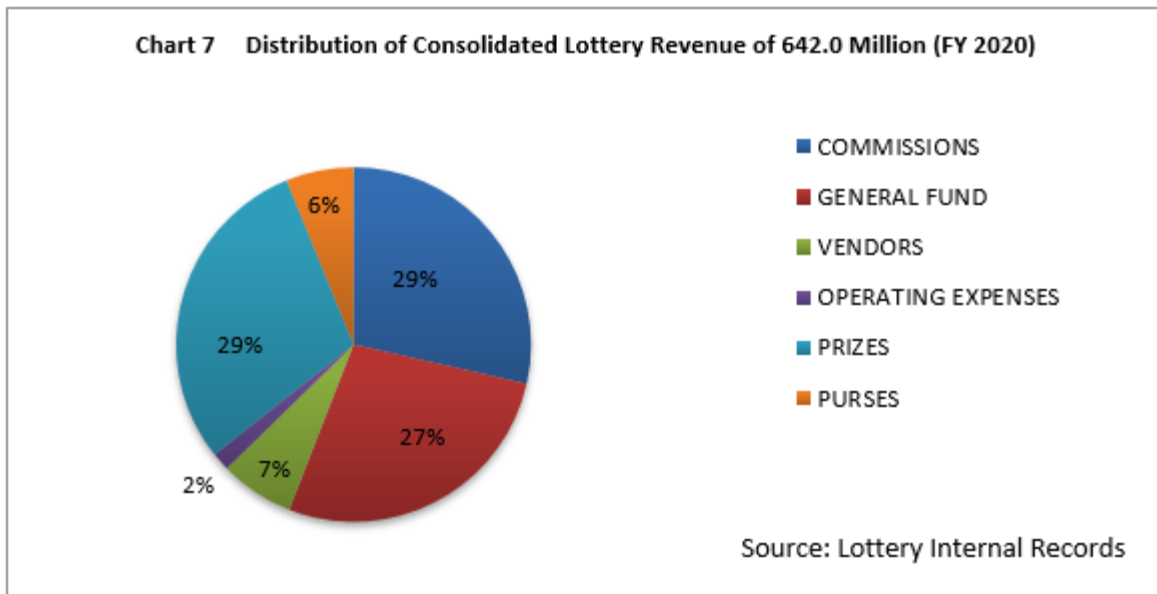

- Public and higher education
- Health and social services
- Public safety
- Judicial and corrections
- Child, youth and family services.

Additional taxes would be needed to provide these vital state services without the Lottery’s contribution.

In addition to the above contribution to the State General Fund, the Lottery’s earnings also contribute directly to:

- The Department of Agriculture for horseracing purse increases and for funding the Standardbred Breeder’s Program and the Certified Thoroughbred Program
- The Department of Health and Social Services for operating the Problem Gamblers’ program

As seen from the chart below, when these distributions are added to the contributions made to the State General Fund, the Lottery contributed 27 cents of every sales dollar to the State of Delaware in fiscal year 2020.

INTERNAL CONTROL ENVIRONMENT:

The Lottery has established and maintains an internal control system designed to ensure that its assets are protected from loss, theft, or misuse. The system also ensures that adequate accounting data is compiled in an accurate and timely fashion to allow for the preparation of financial statements in conformity with Generally Accepted Accounting Practices (GAAP). Because the costs of a control should not exceed the benefits to be derived, the objective is to provide reasonable, but not absolute, assurance that the financial statements are free of any material misstatements. Lottery officials believe that the Lottery's internal control structure provides reasonable assurance that the above objectives are met.

Lottery management also believes that the organization's responsibility towards internal control extends far beyond the aforementioned objectives. The success of the Lottery is wholly dependent upon favorable public perception as well as the public's confidence in the honesty, integrity, and security of its games.

To maintain this public perception of Lottery integrity, the Lottery has enhanced its system of internal controls to include:

- Maintaining highly secure lottery facilities and limiting access to them
- Providing for multiple drawing algorithms
- Hiring an independent CPA firm to test data and witness drawings
- Printing lottery tickets with special inks, dyes and security codes
- Having the central system provider's system of internal controls tested and certified by an independent CPA firm on an annual basis
- Having video lottery machines and software tested by an independent laboratory
- Performing background checks on retailers, agents, vendors and video lottery employees, and Delaware Lottery employees.

BUDGETARY CONTROLS:

The Lottery submits an operating budget and forecasted revenue contribution for the State General Fund to the Department of Finance on an annual basis. The revenue contribution is tracked and reported monthly and is revised on a quarterly basis if necessary. This information is included in the State's budget under the Department of Finance.

ENTERPRISE OPERATIONS:

The Delaware State Lottery operates as an enterprise fund. An enterprise fund is used to account for the operations of an entity that is financed and operated in a manner similar to a private enterprise. The intent of the State is that the costs of providing Lottery services and products to the general public on a continuing basis should be financed by or recovered primarily through user charges.

The Lottery's financial statements are included in the State's Comprehensive Annual Financial Report under Proprietary Fund Type – Enterprise Fund.

Although the Lottery provides an annual operating budget to the State, all capital expenditures and operating expenses are funded by the Lottery through internally generated funds.

The Lottery utilizes internal services of other State agencies for items such as postage, telephone, automobiles, graphics and printing, pension administration, etc. These agencies are compensated by the Lottery through inter-fund transfers.

DEBT ADMINISTRATION:

Money owed to the State of Delaware in the event that the Lottery's MUSL games are discontinued is \$2.7 million as of June 30, 2020. This amount has been reserved by MUSL (Multi-State Lottery) that operates the Powerball, Lotto America and Mega Million games. Please see Note 5 of the Notes to Financial Statements under the "Financial Section" of this report.

The Lottery's enabling legislation does not provide the ability to issue bonded debt.

OTHER INFORMATION

INDEPENDENT AUDIT:

Enabling legislation of the Lottery requires that the State of Delaware Auditor's Office conduct an annual audit of all accounts and transactions of the Delaware State Lottery Office. The cost of the audit is paid by money from the Lottery and designated as operating expenses.

The State Auditor's Office has contracted with an independent Certified Public Accounting firm to perform annual audits of the Lottery's financial statements. The independent auditor's opinion and the current annual audit report are included in the "Financial Section" of this report.

AWARDS:

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the Delaware State Lottery for its comprehensive annual financial report for the fiscal year ended June 30, 2019. This was the 20th consecutive year that the Lottery has achieved this prestigious award. A copy of the certificate for fiscal year 2019 can be seen in this report. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current comprehensive annual financial report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

ACKNOWLEDGMENTS:

This Comprehensive Annual Financial Report for fiscal year 2020 signifies the Delaware State Lottery's commitment to comprehensive disclosure of its financial condition.

The preparation of this report was made possible by cooperation from all departments of the Lottery. We wish to express our special appreciation to the Lottery's Finance and Accounting department as well as to other groups and individuals who assisted in the preparation of this report.

Respectfully submitted,

INDEPENDENT AUDITORS' REPORT

Vernon Kirk, Director of Delaware State Lottery, and
Richard Geisenberger, Secretary of Finance, State of Delaware
Dover, Delaware

Report on the Financial Statements

We have audited the accompanying financial statements of the Delaware State Lottery (the Lottery), an enterprise fund of the State of Delaware, as of and for the years ended June 30, 2020 and 2019, and the related notes to the financial statements, which collectively comprise the Lottery's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Lottery, an enterprise fund of the State of Delaware as of June 30, 2020 and 2019, and the changes in financial position and, where applicable, cash flows thereof for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Vernon Kirk, Director of Delaware State Lottery, and
Richard Geisenberger, Secretary of Finance, State of Delaware

Emphasis of Matter

As discussed in Note 1, the financial statements present only the Lottery and do not purport to, and do not present fairly the financial position of the State of Delaware as of June 30, 2020 and 2019, the changes in financial position, or, where applicable, its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 23 through 29, and the required supplementary information on pages 47 and 48 as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

The introductory section and statistical section have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated October 29, 2020, on our consideration of the Lottery's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Lottery's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Lottery's internal control over financial reporting and compliance.

DELAWARE STATE LOTTERY
Management's Discussion and Analysis
June 30, 2020 and 2019

The management of the Delaware State Lottery (the Lottery) offers this narrative overview and analysis of the Lottery's financial activities for the years ended June 30, 2020 and 2019, which should be read in conjunction with the Lottery's financial statements.

Overview of the Financial Statements

The discussion and analysis are intended to serve as an introduction to the Lottery's financial statements. Since the Lottery is an enterprise fund of the State of Delaware (the State), these financial statements are presented in a manner similar to a private-sector business. As required by accounting principles generally accepted in the United States of America (GAAP), current year's revenues are recorded when earned and expenses are recorded as they are incurred, regardless of when the cash is received or disbursed.

The Statement of Net Position presents information on all of the Lottery's assets, liabilities, deferred outflows, and deferred inflows with the residual of all elements reported as the net position. Pursuant to Delaware law, the Lottery's net position should remain relatively unchanged, since all excess monies are to be sent directly to the State's General Fund, allowing the Lottery to maintain a net position of \$1,000,000.

The Statement of Revenue, Expenses, and Changes in Net Position show the result of the Lottery's total operations and reflect both operating and nonoperating activities. Changes in net position (increases or decreases) reflect the current fiscal year's operating impact upon the overall financial position of the Lottery.

The Statement of Cash Flows provides a detailed analysis of all sources and uses of cash. The direct method of cash flows is presented, ending with a reconciliation of operating income to net cash provided by operating activities. The Statement of Cash Flows is divided into three sections – operating, noncapital financing, and investing.

Notes to the financial statements contain additional information and offer explanations to the financial statements. The notes are intended to assist the reader in understanding the Lottery's basic financial statements.

DELAWARE STATE LOTTERY
Management's Discussion and Analysis
June 30, 2020 and 2019

Condensed Net Position

Table 1
(In millions)

Assets & Deferred Outflows	June 30		
	2020	2019	2018
Cash and investments	\$ 2.2	4.7	5.9
Accounts receivable	14.0	12.4	10.8
Due from State of Delaware	13.3	12.6	12.7
Deposit with Multi-State Lottery	2.6	2.8	2.5
Total assets	<u>32.1</u>	<u>32.5</u>	<u>31.9</u>
Deferred outflows	<u>1.6</u>	<u>1.0</u>	<u>1.1</u>
 Liabilities, Deferred Inflows and Net Position			
Liabilities:			
Prizes liability	6.7	8.5	6.7
Accounts payable and accrued liabilities	9.1	6.9	6.6
Due to the State of Delaware	-	0.7	2.4
Pension and OPEB liability	11.6	11.4	12.1
Multi-State Lottery reserve	2.6	2.8	2.5
Total liabilities	<u>30.0</u>	<u>30.3</u>	<u>30.3</u>
Deferred inflows	<u>2.7</u>	<u>2.2</u>	<u>1.7</u>
Net position:			
Unrestricted	\$ <u>1.0</u>	<u>1.0</u>	<u>1.0</u>

The Lottery's accounting periods are predicated on a 4-4-5-week cycle except at year-end when the closing date includes additional days up to and including June 30. These extra days amounted to six days in 2018, seven days in 2019 and nine days in 2020.

Table 1 above shows that the two extra days of uncollected sales in fiscal year 2020 made up the \$1.6 million increase in accounts receivable over fiscal year 2019. The extra day of uncollected sales in 2018 over 2017 allows for the \$1.6 million increase in accounts receivable.

Prizes liability decreased in fiscal year 2020 over fiscal year 2019 by \$1.8 million due to the shutdown of sports lottery during the fourth quarter of FY2020 for COVID-19. The liability increased in fiscal year 2019 over fiscal year 2018 by \$1.8 million mainly due to the addition of sports wagering on all sports compared to just football in 2018.

With the implementation of the Governmental Accounting Standards Board (GASB) Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other than Pensions*, the Pension and OPEB liability and the amount due from the State of Delaware generally remained unchanged for fiscal years 2020 and 2019 and has decreased from fiscal year 2018 to cover such obligations. Since the Lottery is required to send all surplus funds to the State's General Fund, any monies required to pay these liabilities would come from the State's General Fund.

DELAWARE STATE LOTTERY
Management's Discussion and Analysis
June 30, 2020 and 2019

Revenue

Table 2
Revenue
(In millions)

	Year ended June 30		
	2020	2019	2018
Play 3	\$ 29.0	27.5	27.0
Play 4	24.8	23.7	22.8
Multi Win Lotto	4.0	4.5	4.6
Powerball	14.7	25.2	24.6
Hot Lotto	-	-	1.3
Mega Millions	11.2	20.7	12.1
Lotto America	2.6	3.4	2.1
Keno	8.5	8.6	8.7
Lucky for Life	2.9	2.9	3.0
Instant games	92.9	79.8	70.6
Traditional games revenue	190.6	196.3	176.8
Video lottery, net	301.1	367.8	354.2
I-Gaming	6.1	3.2	2.2
Casino license fees	0.2	0.2	3.2
Sports lottery	103.2	158.6	54.7
Table games, net	40.8	56.6	54.6
Total revenue	\$ 642.0	782.7	645.7

Table 2 above compares revenue for each lottery game category. Fiscal year 2020 showed a slight decrease in traditional lottery sales from fiscal year 2019, down \$5.7 million or 2.9%. Another record year for Instant games along with strong sales in the daily numbers (Play 3 & Play 4) held up against the decline in the jackpot games (Powerball & Mega Millions) due to a year with no high jackpots as found in fiscal year 2019. Comparing fiscal year 2019 with fiscal year 2018, there was an increase in traditional lottery sales of \$19.5 million or 11%. This increase was due to the fact that instant sales had a record year and a record billion dollar Mega Million jackpot in fiscal year 2019.

Video lottery, Table games, and sports lottery had significant decreases in sales due to the closing of the sports books and casinos for most of the fourth quarter due to COVID-19. Sales were down \$137.9 million or 23.7%. Video lottery, table games, and sports lottery revenue increased \$119.5 million or 25.5% from fiscal year 2019 over fiscal year 2018 following industry wide trends.

With the closing of casinos, Igaming sales saw a record year. Players who normally would visit the casinos were able to play video lottery games and poker on the internet. Igaming Sales increased \$2.9 million or 90.6% in fiscal year 2020 compared to fiscal year 2019. Igaming sales increased \$1.0 million or 45.5% from fiscal year 2019 over fiscal year 2018 due mostly to the increase in the popularity of internet gaming.

DELAWARE STATE LOTTERY
Management's Discussion and Analysis
June 30, 2020 and 2019

Cost of Games

Table 3
Cost of Games
(In millions and as a percentage of all revenue)

	Year ended June 30					
	2020		2019		2018	
Commission expense	\$ 183.3	28.5%	\$ 220.5	28.2%	\$ 199.9	31.0%
Gaming vendor fees	43.4	6.7%	47.4	6.1%	43.0	6.7%
Prize expense	189.2	29.4%	244.4	31.2%	136.5	21.1%
Total cost of games	\$ 415.9		\$ 512.3		\$ 379.4	

Table 3 above compares the cost of games for the last three years. Commission expense includes payments to lottery retailers for selling and cashing traditional and sports lottery tickets, and commissions to casinos for the operation of video lottery, internet gaming, sports lottery, and table games. Delaware law allows for the net of sports (sports sales minus sports win) to be used in the calculations for commissions and vendors fees.

Comparing fiscal year 2020 to fiscal year 2019, the commission expense decreased \$37.2 million or 16.9%. The decrease relates to not having these expenses during the shutdown for COVID-19. Commission expense for fiscal year 2019 increased over fiscal year 2018 by \$20.6 million or 10.3%

Gaming vendor fees include the cost of the central system used to monitor and collect pertinent data for the traditional draw games and the video lottery system, the instant games supplier fees, the vendor fees for video lottery terminals and franchise video games supplied to the video lottery agents, and the cost incurred by internet gaming for fees and website maintenance.

Gaming vendor fees for fiscal year 2020 over fiscal year 2019 decreased by \$4 million or 8.4%. This decrease was also related to no costs incurred during the casino shutdown during COVID-19. Gaming vendor fees for fiscal year 2019 increased over fiscal year 2018 by \$4.4 million or 10.2%. The increase in sales was a contributing factor to the increase in vendor fees.

DELAWARE STATE LOTTERY
Management's Discussion and Analysis
June 30, 2020 and 2019

Prize Expense, Net of Reversions

Table 4
Prize Expense, Net of Reversions
(In millions)

	Year ended June 30		
	2020	2019	2018
Hot Lotto	\$ —	—	0.5
Instant games	61.6	53.1	46.7
Keno	5.0	5.0	5.2
Lotto America	1.2	1.7	1.1
Lucky for Life	1.5	1.7	1.8
Mega Millions	5.3	10.5	6.1
Multi Win Lotto	2.5	2.6	2.8
Play 3	14.0	13.3	13.1
Play 4	12.0	11.8	11.0
Powerball	6.9	12.2	12.0
Sports lottery	79.2	132.5	36.2
Total prize expense	\$ 189.2	244.4	136.5

The above table compares prize expense for each lottery game category for the past three years. Prize expense includes the costs for winning tickets for traditional and sports lottery. In general, prize expense by game will increase or decrease from year to year in proportion to the increase or decrease in sales for a particular game. However, the prize expenses for the Play 3 and Play 4 games are impacted by the luck of the draw, and actual prize payment is determined by lottery players' luck in matching the particular set of numbers randomly selected in each drawing for each game. Overall prize expense for the instant game product category is controllable for the most part, by printing a predetermined number and value of winning tickets for each instant game. Sports lottery winners vary from year to year due to the unpredictability of the outcome of professional sports. During any given sports event the liability of the game could exceed the sales for that event.

In Table 4 the comparison of fiscal year 2020 to fiscal year 2019 displayed a decrease in prize expense of \$55.2 million or 22.6%. The majority of the changes in prize expense are related to the increase or decrease in sales by game. The biggest drop can be found in sports lottery. Zero prize expense was recorded during the shutdown of professional sports and the casino sportsbooks during COVID-19. The prize expense for fiscal year 2019 increased \$107.9 million or 78.97% over fiscal year 2018. The increase for mega million and instant prize expense is due to the increase in the sales for those games. Most of the increase for FY19 prize expense over FY18 is in sports. Sports prize expense increased \$96.3 million also because of the increase in sports sales.

DELAWARE STATE LOTTERY
Management's Discussion and Analysis
June 30, 2020 and 2019

Operating Expenses

Table 5
Operating Expenses
(In millions)

	Year ended June 30		
	2020	2019	2018
Operating expenses	\$ 10.8	10.7	10.4

Operating expenses remained relatively unchanged from fiscal year 2018 through fiscal year 2020.

Nonoperating Expenses

Table 6
Nonoperating Expenses
(In millions)

	Year ended June 30		
	2020	2019	2018
Contributions to the State of Delaware:			
Standardbred Breeder's Program	\$ 3.0	3.0	3.0
Certified Thoroughbred Program	1.0	1.0	1.0
Department of Agriculture Purses	34.1	40.2	36.9
Department of Health & Social Services	1.5	1.7	1.6
State of Delaware - General Fund	175.7	213.8	213.3
Total nonoperating expenses	\$ 215.3	259.7	255.8

Table 6 shows the expenses incurred to other state agencies as dictated by Delaware Law. The decrease in nonoperating expenses from 2019 to 2020 was \$44.4 million or 17%. The decrease is mostly from not collecting revenue in the fourth quarter from table games, video and sports due to COVID-19. The increase in contributions to nonoperating expenses in fiscal year 2019 over fiscal year 2018 of \$3.9 million or 1.5% is due to the increase in total revenue and the increase in the percentage of revenue to purses for video due to legislative changes. This increase was in correlation of the increase in sales for the year.

DELAWARE STATE LOTTERY
Notes to Financial Statements
June 30, 2020 and 2019

(1) Summary of Significant Accounting Policies

(a) Legislative Enactment

The Delaware State Lottery (the Lottery) was established by Enabling Legislation (the Legislation) passed on May 31, 1974, by the General Assembly of the State of Delaware (the General Assembly) under the authority of the Governor's Office and under the supervision of a Director. In July 1976, the Lottery was transferred to the Office of the Secretary of Finance. The Director has the power and duty to establish rules for conducting games, including the type and number of games, the price of tickets, the number and amounts of winning tickets, the manner of selecting winning tickets, the manner of prize payment, frequency of drawings, locations and methods for the sale of tickets, procedures for licensing of retailers, and all other functions related to the operation of the Lottery.

The Legislation provides that, for the non-video lottery games, at least 45% of total revenue shall be used to pay prizes, operating expenses shall not exceed 20% of total revenue, and the Lottery shall undertake to provide into the General Fund of the State of Delaware a payment of earnings of 30%. Enabling legislation for video lottery was enacted on July 16, 1994 and provides that, for the video lottery games, at least 87%, but not more than 95% (unless approved by the Director), of total proceeds on an average annual basis shall be used to pay prizes.

(b) Reporting Entity

The Delaware State Lottery (reporting entity) is an enterprise fund of the State of Delaware.

(c) Basis of Presentation

In accordance with accounting principles generally accepted in the United States of America, the financial statements are prepared on the accrual basis of accounting, which requires recognition of revenues when earned and expenses when incurred.

(d) Deferred Outflows and Inflows of Resources

In addition to assets, the Statement of Net Position includes a separate section for deferred outflows of resources. The deferred outflows of resources represent a consumption of net position that applies to future periods.

In addition to liabilities, the Statement of Net Position includes a separate section for deferred inflows of resources. This separate section represents a source of net position that will be amortized to future periods.

(e) Cash and Investments

Cash and investments consist of deposits held in bank accounts and highly liquid overnight investment accounts, as well as deposits held by the State to fund future non-prize costs during the next month.

DELAWARE STATE LOTTERY
Notes to Financial Statements
June 30, 2020 and 2019

(f) Accounts Receivable

Accounts receivable consist primarily of unsettled balances due to the Lottery from the racetracks for video lottery and table games, and from retailers, which principally include grocery and convenience stores serving as the primary distribution channel for traditional lottery sales (drawing and instant games) to the general public. Accounts receivable are stated at the carrying amount net of allowance for uncollectible accounts. An allowance for uncollectible accounts receivable is established when specific customer collection issues are identified. Uncollectible accounts are written off when management has determined that the balance will not be collected.

	2020	2019
Accounts Receivables:		
Accounts	\$ 13,981,606	\$ 12,369,828
Total receivables, net	\$ 13,981,606	\$ 12,369,828
Amounts not scheduled for collection during the subsequent year	\$ —	\$ —

(g) Investments

Investments consist of annuity contracts purchased from insurance companies to fund future prize payments and are carried at amortized cost as nonparticipating investment contracts. The practice of purchasing and holding annuity contracts to fund future prize obligations is no longer employed by the Lottery, as investment amounts reported represent annuity contracts whose most recent purchase was during 1998. It is the Lottery's policy to hold all investments of this nature that were purchased to fund prize obligations until maturity. All investments the Lottery had on hand have matured.

(h) Capital Assets

All purchases of capital assets, mostly computer equipment and furniture and fixtures individually, in excess of \$25,000 are capitalized and carried at cost. Depreciation is computed by using the straight-line method over the estimated useful life of 10 years. When assets are retired or otherwise disposed of, the cost and related accumulated depreciation are removed from the accounts and any resulting gain or loss is reflected in operations in the period of disposal. During the fiscal years ending June 30, 2020, and June 30, 2019, the Lottery had no new purchases of capital assets and had properly disposed of all old capital assets.

(i) Revenue Recognition

Revenue from drawing games and sports lottery is recognized on the day of purchase. Revenue from the sale of instant tickets is recognized when the book has been activated and when one of the following occurs:

- 85% of the related prizes of an activated book is paid
- 90 days from the date of activation
- When the next pack of the same game is activated

Revenue from video lottery and table game sales is recognized, net of prizes paid, at the time the public plays the game. All revenue that the Lottery reports is considered operating revenue.

DELAWARE STATE LOTTERY
Notes to Financial Statements
June 30, 2020 and 2019

(j) Prize Obligations

Prize obligations for the traditional draw games and sports lottery are determined and recognized after each drawing or sports game is held. For the daily number games, winners are paid a certain amount depending upon the number of, or order of, winning numbers. Of every Multi Win Lotto sales dollar, a fixed payment goes to fund the nine lower prize levels with the balance going into the jackpot. If there are no jackpot winners in the Lotto game, the amount is carried forward until there is a winner. For the Powerball, Lotto America, and Mega Millions, 50% of the revenues are allocated to the prize pool.

Prize obligations related to instant games are recognized by taking the greater of prize cash disbursements or the historical estimates of claimed prizes. Disbursements for prizes, including installment prize awards, are charged against the obligations for unpaid prize awards. Prizes unclaimed after one year revert back to the Lottery and reduce the prize costs for the year. Such unclaimed monies are then remitted to the State.

(k) Compensated Absences

The Lottery has accrued a liability included in accounts payable and accrued liabilities for employee future absences, recognizing the obligation relating to services already rendered. This liability represents benefits accrued to Lottery employees for vacation earned as of year-end and sick leave estimated to be paid out at retirement for services rendered as of June 30, 2020. Employees earn from 9.5 to 13.25 hours of vacation leave per month depending on years of service. The employee or his or her estate is paid for unused vacation upon termination of employment. Employees earn 9.5 hours of sick leave per month. The Lottery's obligation for sick leave credit is a maximum of 337.5 hours. As of June 30, 2020, and 2019, the Lottery had liabilities of \$246,681 and \$234,915 for accrued vacation and \$236,555 and \$231,990 for accrued sick leave, respectively.

(l) Operating and Nonoperating Expenses

Operating expenses generally result from providing services and producing and delivering goods in connection with the Lottery's principal ongoing operations. Operating expenses of the Lottery include personnel costs, travel costs, contracted services, and supplies. All expenses not meeting this definition are reported as nonoperating expenses.

(m) Net Pension Liability

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Delaware Public Employees Retirement System (DPERS) and additions to/deductions from DPERS' fiduciary net position have been determined on the same basis as they are reported by DPERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

(n) Net Pension OPEB Liability

For purposes of measuring the net Other Postemployment Benefits (OPEB) liability, deferred outflows of resources and deferred inflows of resources related to OPEB and OPEB expenses, information about the fiduciary net position of OPEB Trust and additions to/deductions from OPEB Trust's fiduciary net position have been determined on the same basis as they are reported by the OPEB Trust. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported a fair value.

DELAWARE STATE LOTTERY
Notes to Financial Statements
June 30, 2020 and 2019

(2) Cash and Investments

Cash and investments reported reflect three types of account balances: Lottery deposit account, Lottery prize accounts, and pooled cash and investments held by the State Treasurer’s Office. Cash receipts and all cash transfers to other state agencies are made in and out of the Lottery deposit account. Prize disbursements are made out of the Lottery prize accounts. Pooled cash and investments consist of cash equivalents, commercial paper, certificates of deposit, short-term (12 to 18 months) and long-term investments, which comprise corporate, municipal and U.S. government obligations, held and managed by the State Treasurer.

Cash and investment balances consisted of the following:

	June 30	
	2020	2019
On hand and in bank	\$ 1,135,934	\$ 2,771,742
Pooled cash and investments	1,035,758	1,976,811
Total cash and investment balances	\$ 2,171,692	\$ 4,748,553

Custodial Credit Risk

For deposits, custodial credit risk is the risk that, in the event of the failure of a depository financial institution, the deposits or collateral securities may not be recovered from an outside party.

All deposits are required by state law to be collateralized by direct obligations of, or obligations guaranteed by, the U.S. government or other suitable obligations as determined by the State’s Cash Management Policy Board (the Board), unless the Board shall find such collateralization not in the best interest of the State. Additionally, the Board has determined that deposits need not be collateralized provided they are held in a bank that for the previous two years has had a return on total average assets of 0.5% or greater and has had an average capital ratio (total equity to total assets) of at least 5.0%. If the bank does not meet the aforementioned criteria, collateral must consist of one or more of the following:

- U.S. government securities;
- U.S. government agency securities;
- Federal Home Loan Board letters of credit;
- State securities; or
- Securities of a political subdivision of the State with a Moody’s Investors service rating of “A” or better.

In addition, the bank must ensure that those securities pledged as collateral have a market value equal to or greater than 102% of the ledger balance(s) in the account(s) each day and ensure that securities pledged are identified as held in the State’s name and are segregated on the bank’s records.

DELAWARE STATE LOTTERY
Notes to Financial Statements
June 30, 2020 and 2019

The bank balance of deposits was not subject to custodial credit risk as all amounts were either fully insured and/or collateralized. As of June 30, 2020, and June 30, 2019, the total bank balance of cash in all bank accounts was \$1,176,636 and \$2,881,693 respectively.

Pooled cash and investments maintained by the State Treasurer are not deemed to have custodial credit risk with regard to the Lottery.

(3) Capital Assets

During the years ending June 30, 2020, and June 30, 2019, the Lottery did not have any new purchases of capital assets. Currently, there are no capital assets or corresponding depreciation expense.

(4) Prize Obligations

The following is a reconciliation of changes in the prize's liability account, which includes the present value of prize installment obligations, for the fiscal years ended June 30, 2020 and 2019:

	2020	2019
Prize obligations, beginning of year	\$ 8,545,304	\$ 6,662,632
Prize payments	(191,086,464)	(242,479,461)
Prize costs, net of reversions	189,235,110	244,362,133
Prize obligations, end of year	\$ 6,693,950	\$ 8,545,304

(5) Participation in the Multi-State Lottery

The Lottery is a member of the Multi-State Lottery (the MUSL), which operates traditional draw games on behalf of participating state lotteries. Each MUSL member sells game tickets through its agents and makes weekly wire transfers to the MUSL in an amount equivalent to the member's share of the estimated grand prize liability. Each MUSL member pays lesser prizes directly to the winners. The MUSL has operated the Powerball game since fiscal year 2008, Mega Millions game since 2010, and Lotto America since 2018. Participating lotteries are required to maintain deposits with MUSL for contingency reserves to protect MUSL from unforeseen prize liabilities. The money in this reserve fund is refundable to MUSL members if the MUSL disbands or if a member leaves the MUSL Board. The MUSL has an agreement that grants MUSL the nonexclusive right to offer the multi-jurisdictional lottery game known as the "Mega Millions Game," to be conducted by the MUSL member lotteries.

The amount the Lottery had on deposit with the MUSL, as of June 30, 2020 and 2019, equaled \$2,662,056 and \$2,845,122 respectively. These amounts are also reported as a liability on the Lottery's balance sheet because they represent the amount to be paid to the State's General Fund upon separation from the MUSL, if the MUSL is not required to use any portion of the Lottery's reserves held by the MUSL.

(6) Delaware Standard Breeder's Program and Delaware Certified Thoroughbred Program

In March 1998, an amendment to the Legislation was passed by the General Assembly that established the Delaware Standardbred Breeder's Program for the purpose of promoting the Delaware harness racing industry. This legislation, amended in 2004, and 2008 requires the Lottery to withhold \$3,000,000 of funds annually (\$750,000 from the State General Fund, \$1,500,000 from Purses, and \$750,000 from Video commissions) and remit to the Delaware Standardbred Breeder's Program.

DELAWARE STATE LOTTERY
Notes to Financial Statements
June 30, 2020 and 2019

In the epilogue language of the fiscal year 2006 Bond Bill, an amendment was passed by the General Assembly that established the Delaware Certified Thoroughbred Program for the purpose of enhancing the quantity of thoroughbred foals and/or yearlings stabled within Delaware. This legislation, amended in 2008, requires the Lottery to withhold \$1,000,000 of funds annually (\$250,000 from the State General Fund, \$500,000 from Purses, and \$250,000 from Video Commissions) and remit these funds to the Delaware Certified Thoroughbred Program.

(7) Contributions to the State of Delaware

As required, under the Legislation, net position of the Lottery may not exceed \$1,000,000; therefore, the Lottery periodically transfers surplus funds to the State in accordance with the Legislation. For the years ended June 30, 2020 and 2019, the Lottery made the following contributions to the State.

	June 30	
	2020	2019
Amounts transferred and to be transferred to the State for the fiscal year:		
General Fund	\$ 175,728,260	\$ 213,826,875
Department of Health and Social Services	1,543,079	1,728,607
Department of Agriculture	34,067,104	40,136,438
	\$ 211,338,443	\$ 255,691,920

(9) Payroll-Related and Other Benefits

All Lottery personnel are employees of the State of Delaware and are covered by pension, health insurance, and other employee benefit programs administered by agencies of the State. During fiscal year 2020 and fiscal year 2019, the Lottery incurred \$5,734,709 and \$5,754,456 respectively, of payroll and benefit costs, including pension, health insurance, and other employee benefit costs, paid to various state agencies responsible for the administration of benefit programs.

DELAWARE STATE LOTTERY
Notes to Financial Statements
June 30, 2020 and 2019

(10) Pension and Other Postemployment Benefits

(a) Pension

The Lottery contributes to the State Employees' Pension Plan (the Plan) established by the State to provide benefits for state employees. The Plan is a cost-sharing multiple employer defined benefit pension plan established in the Delaware Code. The State of Delaware is responsible for setting benefits and amending plan provisions. The Plan prepares separate financial statements and is administered by the Delaware Public Employees' Retirement System (DPERS). All details of the Plan can be obtained by writing to the State Board of Pension Trustees and Office of Pensions, McArdle Building, Suite #1, 860 Silver Lake Boulevard, Dover, Delaware 19904-2402.

Benefits Provided

The Plan provides retirement, disability and death benefits. Pre-2012 members are eligible for monthly retirement benefits upon reaching (a) age 62 with at least five years of credit service; (b) age 60 with 15 years of credit service; or (c) 30 or more years of service regardless of age. Post-2011 members are eligible for monthly retirement benefits upon reaching (a) age 65 with at least ten years of credited service; (b) age 60 with 20 years of credit service; or (c) 30 or more years of service regardless of age.

Pre-2012 participants are eligible for disability benefits after five years of credited service. In lieu of disability pension benefits, over 90% of the members in this plan opted into a Disability Insurance Program offered by the State effective January 1, 2006. Post-2011 participants are not offered disability pension benefits and are in the Disability Insurance Program.

Death benefits are payable upon the death of an active member who has reached age 62 with at least five years of credit service. Such benefits are paid at 75% of the benefit the employee would have received at age 62. If an employee is currently receiving a pension, the eligible survivor receives 50% of the pension benefit (or 75% with 3% reduction of benefit). Burial benefits of \$7,000 per member are also provided.

Employer Contributions

Employer contributions are determined by the Board of Pension Trustees. For the years ending June 30, 2020 and 2019, the rate of the employer contribution was 11.8% and 10.4% percent of covered payroll respectively. The Lottery's employer contributions for the years ended June 30, 2020 and 2019 was \$306,769 and \$304,759 respectively.

Net Pension Liability and Expense

At June 30, 2020 and 2019, the Lottery reported a net pension liability of \$1,932,872 and \$1,585,580, respectively, for its proportionate share of the net pension liability of the State of Delaware. The net pension liability at June 30, 2020, was measured as of June 30, 2019, and the total pension liability used to calculate the net pension liability was determined by rolling forward the Plan's total pension liability as of June 30, 2018 to June 30, 2019. The net pension liability at June 30, 2019, was measured as of June 30, 2018, and the total pension liability used to calculate the net pension liability was determined by rolling forward the Plan's total pension liability as of June 30, 2017 to June 30, 2018. As of the measurement date, June 30, 2019, the lottery's proportion was 0.1241 percent, an increase of 0.0013 percent from June 30, 2018. As of the measurement date June 30, 2018, the Lottery's proportion was 0.1228 percent, which was a decrease of 0.0041 percent

DELAWARE STATE LOTTERY
Notes to Financial Statements
June 30, 2020 and 2019

from its proportion measured as of June 30, 2017. For the years ended June 30, 2020 and 2019, the Lottery recognized a pension expense of \$534,961 and \$306,987.

Deferred Outflows and Inflows of Resources

At June 30, 2020 and 2019, the Lottery reported deferred outflows of resources of \$306,769 and \$304,759, respectively, for its contributions after the measurement date, which will be recognized as a reduction of the net pension liability in the following year.

At June 30, 2020 and 2019, the Lottery reported deferred outflows of resources related to pensions from the following sources:

	<u>2020</u>	<u>2019</u>
Net difference between projected and actual investment earnings	\$ 21,938	\$ -
Difference between actual and expected experience	162,572	82,865
Changes in assumptions	200,648	276,068
Change in proportion	11,959	-
Contributions subsequent to the date of measurement	306,769	304,759
	<u>\$ 703,886</u>	<u>\$ 663,692</u>

At June 30, 2020 and 2019, the Lottery reported deferred inflows of resources related to pensions from the following sources:

	<u>2020</u>	<u>2019</u>
Net difference between projected and actual investment earnings	\$ -	\$ 67,212
Difference between actual and expected experience	14,187	22,884
Changes in proportions	73,442	103,445
	<u>\$ 87,629</u>	<u>\$ 193,541</u>

Amounts reported as deferred inflows and outflows of resources at June 30, 2020, related to pensions will be recognized as part of pension expense in future periods as follows:

Year Ending <u>30-Jun</u>	
2021	\$ 174,804
2022	(10,508)

	<u>\$ 309,488</u>

DELAWARE STATE LOTTERY
Notes to Financial Statements
June 30, 2020 and 2019

Actuarial Assumptions

The collective total pension liability for the June 30, 2019 measurement date was determined by an actuarial valuation as of June 30, 2018, with update procedures used to roll forward the total pension liability to June 30, 2019. This actuarial valuation used the following actuarial assumptions:

Investment Return includes inflation at 2.5%
Salary Increases – 2.5% + Merit, includes inflation at 2.5%

The total pension liabilities are measured based on assumptions pertaining to the interest rates inflation rates, and employee demographic behavior in future years. It is likely that future experience will not exactly conform to these assumptions. To the extent that actual experience deviates from these assumptions, the emerging liabilities may be higher or lower than anticipated. The more the experience deviates the larger the impact on future financial statements.

Mortality assumptions are based on the Sex distinct RP-2014 tables with gender adjustments for healthy annuitants and disabled retirees and an adjusted version on MP-2015 mortality improvement scale on a fully generational basis.

Projected benefit payments do not include the effects of projected ad hoc cost-of-living adjustments (ad hoc COLAs) as they are not substantively automatic. The primary considerations relevant to making this determination include the historical pattern of granting the changes and the consistency in the amounts of the changes.

The long-term expected rate of return on plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by an asset allocation percentage, which is based on the nature and mix of current and expected plan investments, and by adding expected inflation. Best estimates of geometric real rates of return for each major asset class included in the System’s current and expected asset allocation are summarized in the following table:

<u>Asset class</u>	Long-term expected real rate of return	Asset allocation
Domestic equity	5.7%	29.5%
International equity	5.7%	13.5%
Fixed income	2.0%	27.1%
Alternative investments	7.8%	22.4%
Cash and equivalents	-	7.5%

Discount Rate

The discount rate used to measure the total pension liability was 7.0%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rates and that contributions from employers will be made at rates determined by the Board of Pension Trustees, actuarially determined. Based on those assumptions, the pension plan’s fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. *Sensitivity of the Lottery’s Proportionate Share of the Net Pension Liability to Changes in the Discount Rate*

DELAWARE STATE LOTTERY
Notes to Financial Statements
June 30, 2020 and 2019

Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Lottery's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following presents the net pension liability calculated using the discount rate of 7.0%, as well as what the collective net pension liability would be if it were calculated using a discount rate that is one percentage point lower or one percentage point higher than the current rate:

	1% Decrease <u>6.00%</u>	Discount Rate <u>7.00%</u>	1% Increase <u>8.00%</u>
2020 Lottery's proportionate share of net pension liability	<u>\$ 3,350,502</u>	<u>\$ 1,932,872</u>	<u>\$ 598,906</u>
2019 Lottery's proportionate share of net pension liability	<u>\$ 3,076,897</u>	<u>\$ 1,585,580</u>	<u>\$ 333,305</u>

Pension Plan Fiduciary Net Position

Detailed information about the Delaware Public Employees' Retirement System (DPERS) fiduciary net position is available in the DPERS Comprehensive Annual Financial Report which can be obtained from the pension office at McArdle Building, Suite 1; 860 Silver Lake Blvd; Dover, DE, 19904.

(b) Other Postemployment Benefits (OPEB)

The Lottery contributes to the State Employees' Other Postemployment Benefits Fund Trust (OPEB Trust) established by the State to provide benefits for state employees. The OPEB Trust is a cost-sharing multiple employer defined benefit plan established in the Delaware Code. Policy for and management of the OPEB Trust benefits provided to retirees are the responsibility of the State. Beginning in FY 2018, the OPEB Trust prepares separate financial statements and is administered by the Delaware Public Employees' Retirement System (DPERS). All details of the OPEB Trust can be obtained by writing to the State Board of Pension Trustees and Office of Pensions, McArdle Building, Suite #1, 860 Silver Lake Boulevard, Dover, Delaware 19904-2402.

Benefits Provided

The OPEB Trust provides medical coverage to eligible pensioners and their eligible dependents through the same healthcare plans that are available to active employees. The participant's cost and vesting provisions of OPEB benefits is variable based on years of service. Pensioners who retire after July 1, 2012 and who become eligible for Medicare will pay an additional five percent of the Medicare Supplement offered by the State. Surviving spouses are eligible for coverage after a retiree's death.

Contributions

Participating employers fund the OPEB Trust for current retirees on a pay-as-you-go basis along with funding for future benefits at a rate that is approved in the annual budget, but not actuarially determined. By State Statute Chapter 52, Title 29 of the Delaware Code, contribution requirements of plan members and the government are established and may not be amended by the State Legislature.

DELAWARE STATE LOTTERY
Notes to Financial Statements
June 30, 2020 and 2019

For the year ended June 30, 2020, the rate of the employer contribution was 11.8 percent of covered payroll. The Lottery's employer contribution for the years ended June 30, 2020 and 2019 was \$320,928 and \$303,694, respectively. The Lottery's required contributions equaled actual contributions made for the years ended June 30, 2020 and 2019.

Net OPEB Liability and Expense

At June 30, 2020 and 2019, the Lottery reported a net Other Postemployment Benefits (OPEB) liability of \$9,630,120 and \$9,824,521, respectively, for its proportionate share of the net OPEB liability of the State of Delaware. The net OPEB liability at June 30, 2020, was measured as of June 30, 2019, and the total OPEB liability used to calculate the net OPEB liability was determined by rolling forward the Plan's total OPEB liability as of June 30, 2018 to June 30, 2019. The net OPEB liability at June 30, 2019, was measured as of June 30, 2018, and the total OPEB liability used to calculate the net OPEB liability was determined by rolling forward the Plan's total OPEB liability as of June 30, 2017 to June 30, 2018.

As of the measurement date, June 30, 2019, the Lottery's proportion is based on the percentage of actual employer contributions during the period ending June 30, 2018. As of the measurement date, June 30, 2018, the Lottery's proportion is based on the percentage of actual employer contributions during the period ending June 30, 2017. The Lottery's 2019 and 2018 proportion was 0.1208 percent and 0.1197 percent, respectively. The 2019 portion showed an increase of 0.0011 percent from its proportion measured as of June 30, 2018. The 2018 portion showed a decrease of 0.0004 percent from its proportion measured as of June 20, 2017. For the year ended June 30, 2020 and 2019, the Lottery recognized an OPEB expense of \$174,839 and \$264,708, respectively.

Deferred Outflows and Inflows of Resources

At June 30, 2020 and 2019, the Lottery reported deferred outflows of resources related to OPEB from the following sources:

	2020	2019
Contributions subsequent to the date of measurement	\$ 320,928	\$ 303,694
Change in assumptions	468,840	-
Changes in proportions	91,395	-
	<u>\$ 881,163</u>	<u>\$ 303,694</u>

At June 30, 2020 and 2019, the Lottery reported deferred inflows of resources related to OPEB from the following sources:

	2020	2019
Net difference between projected and actual investment earnings	\$ 8,721	\$ 24,685
Expected and Actual Experience Difference	1,081,063	-
Changes in assumptions	1,031,726	1,334,798
Changes in proportions	475,249	611,495
	<u>\$ 2,596,759</u>	<u>\$ 1,970,978</u>

DELAWARE STATE LOTTERY
Notes to Financial Statements
June 30, 2020 and 2019

The cumulative amounts of collective net deferred outflows of resources and deferred inflows of resources will be recognized in OPEB expense as follows:

Year Ending <u>30-Jun</u>	
2021	\$ (706,931)
2022	(701,864)
2023	(388,288)
2024	(135,275)
2025	<u>(104,166)</u>
	<u>\$ (2,036,524)</u>

Actuarial Assumptions

The total OPEB liability for the June 30, 2019 and June 30, 2018 measurement date was determined by an actuarial valuation as of June 30, 2018 and June 30, 2017, with update procedures used to roll forward the total OPEB liability to June 30, 2019 and June 30, 2018. These actuarial valuations used the following actuarial assumptions.

Actuarial assumptions:	June 30, 2019	June 30, 2018
Discount Rate	3.50%	3.87%
Projected Salary increases	3.25% + Merit	3.25% + Merit
Healthcare cost trends rates	6.60%	6.80%

Mortality rates were based on the sex-distinct employee, healthy annuitant, and disabled annuitant mortality tables derived from the RP-2014 Total Dataset Employee Mortality Table, including adjustment factors. Future mortality improvements are reflected by applying a custom projection scale on a generational basis to adjusted base tables from the base year.

The total OPEB liabilities are measured based on assumptions pertaining to the interest rates, inflation rates, health costs, and employee demographics behavior in future years. The assumptions used were based on the results of an actuarial experience study conducted in 2016. It is likely that future experiences will not exactly conform to these assumptions. To that extent liabilities may be higher or lower than anticipated. The more the experience deviates the larger the impact on future financial statements.

Discount Rate

The discount rate used to measure the total OPEB liability was 3.87% at the beginning of the current measurement period and 3.50% at the end of the current measurement period, based on the Bond Buyer GO 20-Bond Municipal Bond Index. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rate and the employer contributions to the OPEB will continue to follow the pay-as-you-go contribution policy. Based on the assumptions of a pay-as-you-go plan, the discount rates used for June 30, 2019 measurement dates are equal to the applicable rate of the 20-year, tax exempt general obligation municipal bonds with an average rating of AA/Aa or higher.

(11) Risk Management

The Lottery stipulates in its vendor contracts that the vendors carry various insurance coverage such as property (video gaming machines and online terminals, etc.), general liability, errors and omissions, automotive, and crimes. The Lottery's risks of losses related to workers' compensation, employee healthcare, automobile, and a portion of property and casualty claims are insured internally by the State.

(12) Commitments

The Lottery has entered into various contracts for services to be rendered relating principally to the operation of the Lottery's games. Under the gaming systems contract the Lottery is committed to 5.371% of draw game sales, 4.18% of PHD (high definition lottery ticket vending machine) sales, 9.95% of Keno sales, 5.6% of instant sales, 12.5% of track sports net revenue and 25% of retailer sports net revenue, 1% of video net gaming revenue, and 25% of net win for charitable gaming video machines to its central system provider through October 2022. For video lottery terminals, the lottery is committed to a range of 6.5% to 7.0% to video lottery vendors through October 28, 2020. For video lottery terminals classified as electronic table games (ETG), the Lottery is committed to a range of 7% to 20% through March 15, 2021.
