

Delaware College Investment Plan Annual Report for Calendar Year ended December 31, 2018

Why This Audit? In accordance with 29 Del. C. § 2906, the Auditor of Accounts (AOA) is releasing a financial statement audit of the Delaware College Investment Plan Annual Report for Calendar Year ended December 31, 2018.

It is a pleasure to report this audit contained an unmodified opinion. [1]

The Delaware College Investment Plan Annual Report for Calendar Year ended December 31, 2018 can be found on our website: click here.

Please do not reply to this email. For any questions regarding the attached report, please contact Kathleen McGuiness, State Auditor, at 302-739-5055 or Kathleen.McGuiness@delaware.gov

[1] An unmodified opinion is sometimes referred to as a "clean" opinion. It is one in which the auditor expresses an opinion that the financial statements present fairly, in all material respects, an entity's financial position, results of operations and cash flows in conformity with generally accepted accounting principles.

Standard & Poor's, S&P and S&P 500 are registered service marks of The McGraw-Hill Companies, Inc. and have been licensed for use by Fidelity Distributors Corporation.

Other third-party marks appearing herein are the property of their respective owners.

All other marks appearing herein are registered or unregistered trademarks or service marks of the State of Delaware or of FMR LLC or an affiliated company. © 2019 FMR LLC. All rights reserved.

This report and the financial statements contained herein are submitted for the general information of the holders of units of the Portfolios. This report is not authorized for distribution to prospective participants in the Portfolios unless preceded or accompanied by a current Fact Kit.

Portfolio units are not deposits or obligations of, or guaranteed by, any depository institution. Units are not insured by the FDIC, Federal Reserve Board or any other agency, and are subject to investment risks, including possible loss of principal amount invested.

Although the underlying deposits are eligible for FDIC insurance, subject to applicable federal deposit insurance limits, the Units of the Bank Deposit Portfolio are not insured or guaranteed by the FDIC or any other government agency. You are responsible for monitoring the total amount of your assets on deposit at the depository bank, including amounts held directly at the depository bank. All such deposits held in the same ownership capacity at the depository bank are subject to aggregation and to the current FDIC insurance coverage limitation of \$250,000. Please see a 529 Fact Kit for more details.

Neither the Portfolios, the mutual funds in which they invest, nor Fidelity Distributors Corporation is a bank.

For more information on any Fidelity fund, including charges and expenses, call 1-800-544-6666 for a free prospectus. For more information on the Delaware Plan, call 1-800-544-1655 for a free Fact Kit. Read it carefully before you invest or send money.

Chairman's Message to Participants

Dear Participant:

On behalf of the State of Delaware and the Plans Management Board, we are pleased to provide you with your Delaware College Investment Plan (the "Delaware Plan") Annual Report as of December 31, 2018. The Annual Report is designed to provide you with an opportunity to review the Delaware Plan in depth, including the performance of the Portfolios, along with expense, holdings, asset allocation and investment strategy information. Additionally, the *Management's Discussion of Fund Performance* provides commentary from the Plan's Co-Portfolio Managers, Andrew Dierdorf and Brett Sumsion, on the performance of the Portfolios and the financial markets over the past year.

We are pleased to offer our Delaware Plan Participants a diverse selection of investments to help achieve their college savings goals. The Delaware Plan includes age-based and static Portfolios that are invested in Fidelity mutual funds, as well as age-based Multi-Firm Portfolios that invest in mutual funds from a broad universe of investment companies. In addition, the Delaware Plan offers Index Portfolios that are invested in Fidelity index funds.

There has been one notable change in the structure of the Plan. Effective on February 16, 2018, the composite benchmarks for the 529 Index Portfolios were modified, with the MSCI EAFE index replacing the MSCI ACWI ex U.S., where applicable.

As you consider your investment options, you can also take comfort in knowing that earnings on your Delaware Plan investments will grow tax deferred and that withdrawals for qualified education expenses will be free from federal income tax and Delaware personal income tax. As a reminder, however, Delaware Plan participants should consult with a tax advisor regarding federal income tax considerations related to their account. Lastly, we encourage you to call Fidelity's dedicated college planning representatives at 1-800-544-1655 for a personalized review of your Delaware Plan account to help determine whether your investments are appropriately allocated based on your specific college savings goals.

Thank you for choosing the Delaware College Investment Plan. We look forward to serving your needs for years to come.

Sincerely,
Colleen C. Davis, State Treasurer
Sincerely,

Stephen Saville, Chair, Plans Management Board

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements and financial highlights in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements and financial highlights that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements and financial highlights based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements and financial highlights are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Independent Auditor's Report - continued

Opinion

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial position of each of the Portfolios constituting the Delaware College Investment Plan as of December 31, 2018, and the results of their operations and the changes in their net assets for the year then ended, and the financial highlights for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

The *Performance: The Bottom Line*, *Market Recap*, and *Fund Talk: The Managers' Overview* have not been subjected to the auditing procedures applied in the audit of the basic financial statements and financial highlights, and accordingly, we do not express an opinion or provide any assurance on it.

Very truly yours,

Belfint, Lyons & Shuman, P.A.

March 29, 2019 Wilmington, Delaware

^A A portion of the Portfolio's expenses were reimbursed by Fidelity. Absent reimbursement, returns would have been lower.

13

Understanding Performance

How a portfolio did yesterday is no guarantee of how it will do tomorrow. The stock market, for example, has a history of long-term growth and short-term volatility. In turn, the unit price and return of a portfolio that invests in stocks will vary. That means if you sell your units during a market downturn, you might lose money. But if you can ride out the market's ups and downs, you may have a gain.

Understanding Performance

Management's Discussion of Fund Performance

Market Recap: The global economy remained in expansion in 2018, but growth became less synchronous and more uneven. Meanwhile, global monetary policy became a headwind, and this uncertainty spurred an increase in volatility among risk assets. China entered a growth recession in the latter part of the year, and this slowdown, along with global monetary tightening and trade-policy uncertainty between China and the U.S., weighed on the industrial sectors in Europe and elsewhere. Looking at global assets, the 12 months marked a reversal of sorts, with the positive trajectory of equities seen earlier in 2018 turning decidedly negative later in the second half. Several factors served to dim the outlook for risk assets, including the pace of the U.S. Federal Reserve's interest rate increases, emerging late-cycle conditions, slowing economic growth in China, falling commodity prices and the U.K.'s planned "Brexit" from the European Union.

Against this backdrop, non-U.S. equities suffered a pronounced, broad-based correction, returning -14.04% for the year, according to the MSCI ACWI ex USA Index. Among regions in the index, Asia-Pacific (-11%) and Japan (-13%) held up best, whereas resource-rich Canada (-17%), Europe (-14%) and emerging markets (-14%) lagged. In a turnaround from prior quarters in 2018, the value segment of equity markets outpaced growth across the globe amid the fourth-quarter downturn. Results at home, albeit negative, were comparatively strong globally, with the U.S. bellwether S&P 500® index returning -4.38%. Sector-wise, seven of the 11 major sectors in the S&P 500® lost ground this period. Falling crude-oil prices caused energy stocks (-18%) to suffer most, while concerns about slowing global growth felled the materials (-15%), industrials (-13%) and financials (-13%) sectors. Conversely, health care (+6%) led the way, followed by the utilities (+4%), information technology (+3%) and consumer discretionary (+2%) sectors. The small-caporiented Russell 2000® Index had a return of -11.01% for the year. Commodities also struggled, as reflected in the -11.25% result of the Bloomberg Barclays Commodity Index Total Return.

U.S. investment-grade bonds were roughly flat (+0.01%) for the year, according to the Bloomberg Barclays U.S. Aggregate Bond Index. In the latter half of the period, concerns about global growth pushed Treasury yields lower and credit spreads wider. Short-term debt, as shown by the Bloomberg Barclays U.S. 3-Month Treasury Bellwether Index, led most U.S. investment-grade sectors with a return of 1.89%, followed by asset-backed securities (+1.8%) and agency bonds (+1.3%), while corporate credit returned -2.1%. Elsewhere, international bonds faced a similar struggle, while other non-core, more-credit-sensitive fixed-income segments, including U.S. high-yield corporates and emerging-markets debt also had a difficult year.

Comments from Co-Portfolio Managers Andrew Dierdorf and Brett Sumsion: For the year, absolute returns were negative for substantially all of the age-based and risk-based ("static") Fidelity Funds, Multi-Firm, and Fidelity Index Portfolios, with performance trending as we expected along both the age and risk spectrums. For the age-based Portfolios, the nearer-term and more-conservative portfolios with higher allocations to fixed income and lower exposure to equities generated low-single-digit negative returns. Longer-dated and more-aggressive portfolios with higher allocations to equities and less exposure to fixed income did not fare as well, returning roughly -9% to -10%. Versus Composite indexes, all Fidelity actively managed, age-based and static Portfolios underperformed. Among static funds, the more-conservative Portfolios, including Delaware Conservative Portfolio (Fidelity and Fidelity Index), Delaware Intermediate Treasury Index Portfolio and Delaware Money Market Portfolio, had modestly positive returns in 2018, but lagged their Composite benchmarks.

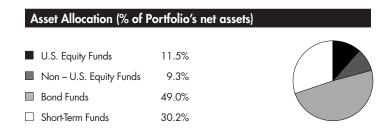

Fidelity age-based and Multi-Firm age-based Portfolios underperformed their respective Composite indexes in 2018 primarily due to the performance of the underlying investment funds, while active asset allocation detracted to a lesser extent. In terms of underlying investment performance, investments in U.S. and non-U.S. equity funds hurt most, notably among U.S. value-oriented strategies — a style that was out of favor for most of the year. The performance of non-U.S. equity funds also lagged. From an active asset allocation perspective, an overweighting in non-U.S. equities and an underweighting in investment-grade bonds held back the Portfolios' relative results. An out-of-Composite allocation to commodities also hurt. Conversely, underweighting U.S. equities helped to a modest extent. For their part, Fidelity Index Portfolios performed roughly in line with their respective Composite benchmarks. (For specific results for Fidelity Funds Portfolios, Multi-Firm Portfolios and Fidelity Index Portfolios, please refer to the Performance section of this report.)

Delaware Portfolio 2027 (Multi-Firm)

Delaware Portfolio 2030 (Multi-Firm)

Delaware Portfolio 2033 (Multi-Firm)

Delaware Portfolio 2036 (Multi-Firm)

Fidelity Funds Portfolios invest in a combination of Fidelity equity, commodity, fixed-income and short-term funds, which are primarily actively managed by Fidelity Management & Research Company (FMR), an affiliated adviser or sub-adviser, or Geode Capital Management, LLC (Geode), a registered investment adviser. Fidelity Index Portfolios invest in a combination of Fidelity equity, commodity, fixed-income and short-term funds, which are primarily passively managed by FMR, an affiliated adviser or sub-adviser, or Geode. There are individual fund Portfolios which invest in a single equity, fixed-income or money market fund, also managed by FMR, an affiliated adviser or sub-adviser, or Geode. Delaware Bank Deposit Portfolio invests in an interest-bearing account held at Wells Fargo Bank, N.A. Multi-Firm Portfolios invest in a combination of equity, commodity, fixed-income and short-term funds managed by FMR, an affiliated adviser or sub-adviser, or Geode, and non-affiliated mutual funds that participate in Fidelity's Funds-Network (Third Party funds). Third Party funds and Fidelity equity, commodity, fixed-income and short-term funds are collectively referred to as Underlying Funds.

2. Significant Accounting Policies:

The financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP), which require management to make certain estimates and assumptions at the date of the financial statements. Actual results could differ from those estimates. Subsequent events, if any, through the date that the financial statements were issued, March 29, 2019, have been evaluated in the preparation of the financial statements. The Portfolios qualify as investment companies under FASB ASC 946 *Financial Services -Investment Companies* and follow the accounting and reporting guidance for investment companies. The Portfolios' Schedules of Investments or Statements of Assets and Liabilities lists each of the Underlying Funds as an investment of each Portfolio but do not include the underlying holdings of each Underlying Fund. The following summarizes the significant accounting policies of the Portfolios:

Investment Valuation. Investments are valued as of 4:00 p.m. Eastern time on the last calendar day of the period. Each Portfolio categorizes the inputs to valuation techniques used to value its investments into a disclosure hierarchy consisting of three levels as shown below:

Level 1 – quoted prices in active markets for identical investments

Level 2 – other significant observable inputs

Level 3 – unobservable inputs (including each Portfolio's own assumptions based on the best information available)

Valuation techniques used to value each Portfolio's investments by major category are as follows: Investments in the Underlying Funds are valued at their closing net asset value (NAV) each business day and are categorized as Level 1 in the hierarchy. If a Third Party fund's NAV is unavailable, shares of that fund may be valued by another method that the FMR Fair Value Committee believes reflects fair value in accordance with fair value

159

Notes to Financial Statements - continued

pricing policies adopted for the Portfolios and is categorized as Level 2 in the hierarchy. As of December 31, 2018, all investments held by the Portfolios are categorized as Level 1 under the Fair Value Hierarchy.

Investment Transactions and Income. For financial reporting purposes, the Portfolios' investment holdings and NAV include trades executed through the end of the last business day of the period. The NAV per unit for processing participant transactions is calculated as of the close of business of the New York Stock Exchange (NYSE), normally 4:00 p.m. Eastern time, and includes trades executed through the end of the prior business day. Gains and losses on securities sold are determined on the basis of average cost. Income and capital gain distributions from the Underlying Funds, if any, are recorded on the ex-dividend date. Interest income is accrued as earned. There are no distributions of net investment gains or net investment income to the Portfolios' participants or beneficiaries.

Expenses. Expenses are recorded on the accrual basis. Expense estimates are accrued in the period to which they relate and adjustments are made when actual amounts are known. Expenses included in the accompanying financial statements reflect the expenses of each Portfolio and do not include any expenses associated with the Underlying Funds.

Other. There are no unrecognized tax benefits in the accompanying financial statements in connection with the tax positions taken by each Portfolio. The Portfolios do not file any tax returns since the Trust is exempt from federal and state income tax under Section 529 of the IRC.

3. Fees

The Trustee has entered into a Management and Administrative Services agreement with Fidelity Brokerage Services, LLC (FBS) to provide administrative, record keeping, distribution and marketing services to the Trust. According to this agreement and a related investment advisory agreement with FMR Co., Inc., an investment adviser registered under the Investment Advisers Act of 1940 that provides investment management services to the Trust, a Management and Administration Fee is charged to the Portfolios at an annual rate based on the net assets of each Portfolio. The Management and Administration Fee has up to three components, a Program Manager Fee that is paid to FMR Co., Inc., a Bank Administration Fee that is paid to FBS and a State Fee that is paid to the Trustee.

For Fidelity Funds Portfolios that invest in underlying actively managed funds, the Program Manager Fee is charged at an annual rate of .15%. For Fidelity Index Portfolios that invest in underlying index funds, the Program Manager Fee is charged at an annual rate of .08%. For Multi-Firm Portfolios that invest in Fidelity funds and Third Party funds, the Program Manager Fee is charged at an annual rate of .30%. For Delaware Bank Deposit Portfolio, the Program Manager Fee is charged at an annual rate ranging from .00% to .05% depending on the daily Federal Funds Target Rate.

The Bank Administration Fee paid to Fidelity for its administration services in connection with Delaware Bank Deposit Portfolio is charged at an annual rate ranging from .00% to .40% depending on the daily Federal Funds Target Rate. The Bank Administration Fee is charged only to the Bank Deposit Portfolio.

For Fidelity Funds Portfolios that invest in underlying actively managed funds, the State Fee is charged at an annual rate of .05%. For Fidelity Index Portfolios that invest in underlying index funds, the State Fee is charged at an annual rate of .01%. For Multi-Firm Portfolios that invest in Fidelity funds and Third Party funds, the State fee is charged at an annual rate of .05%. For Delaware Bank Deposit Portfolio, the State Fee is charged at an annual rate of .05%.

4. Other Information:

In the normal course of business, the Portfolios may enter into contracts that provide general indemnifications. The Portfolios' maximum exposure under these arrangements is unknown as this would be dependent on future claims that may be made against the Portfolios. The risk of material loss from such claims is considered remote.

The Portfolios do not invest in the Underlying Funds for the purpose of exercising management or control; however, investments by the Portfolios within their principal investment strategies may represent a significant portion of an Underlying Fund's net assets. At the end of the period, no Portfolios held a significant portion of the outstanding shares of any Underlying Fund.
